**MISSION STATEMENT
UPDATE**

The Texas College Board of Trustees reviewed and restated the mission statement of the college during the fall meeting, October 2019. The approved restated Mission statement follows:

Texas College is a Historically Black College founded in 1894, by a group of CME ministers. Our mission continues to embody the principles of the Christian Methodist Episcopal Church. The College shall prepare students with competencies in critical and creative thinking related to the knowledge, skills, and abilities as defined in areas of study. Additionally, the College shall provide an environment to inspire intellectual, spiritual, ethical, moral, and social development, which empowers graduates to engage in life-long learning, leadership, and service.

United Negro College Fund

DISCLAIMER NOTICE

The Texas College Catalog is an agreement between the student and the College. It contains information about academic requirements, policies and regulations of the institution. Each student should become familiar with its contents in order to prevent unnecessary difficulties, uncertainty and delays that will hinder progress toward graduation. Although this catalog accurately reflects programs, policies and requirements of the institution at the time of printing, the College reserves the right to correct errors that may have occurred in the printing of this document. The College also reserves the right to withdraw courses at any time, change fees, tuition, rules, calendars, curriculum, degree programs, degree requirements, graduation procedures, or any other requirement without prior notice and as deemed necessary.

SEXUAL HARRASSMENT POLICY

Texas College prohibits sexual harassment in any form by any member of the faculty, staff, or student body. The College is committed to creating and maintaining an environment for all College personnel and students that is free of harassment, forced sexual activity, or any other sexual communication or conduct that interferes with performance in the classroom or the workplace. Persons found in violation of this policy will be subject to disciplinary action which may include written warning, suspension, transfer, demotion, dismissal, and/or arrest by local authorities.

NON-DISCLOSURE OF EDUCATIONAL RECORDS

Information protected by the Family Educational Rights and Privacy Act (FERPA) of 1974 may be made available to persons with the written authorization of the student. Under FERPA, employees of the College may be given access to student information based on having legitimate educational need.

For additional information regarding FERPA regulations, you may go the web address: <http://www2.ed.gov/policy/gen/guid/fpco/ferpa/index.html>; you may call 1-800-USA-LEARN (1-800-872-5327) (voice); individuals who use TDD may call 1-800-437-0833; or you may write at the following address:

AMERICAN WITH DISABILITIES ACT (ADA)

Texas College provides equal opportunity to qualified disabled persons in accordance with the requirements of the American with Disabilities Act (ADA). This Act ensures that individuals with current disabling conditions are provided reasonable accommodations to enable them to enjoy the programs, activities, services and employment opportunities offered by the College. Texas College adheres to this provision once a student/employee self identifies. Students may

contact the Office of Academic Affairs for information/assistance; employees may contact the Office of Human Resources.

NOTICE OF NON-DISCRIMINATION

Texas College does not discriminate in any employment practice, education program, or educational activity on the basis of race, color, religion, national origin, sex, age, disability, sexual orientation or veteran status. The Vice President of Academic Affairs has been designated to handle student inquiries regarding non-discrimination policies and the Director of Human Resources has the responsibility for faculty-staff concerns in this regard. Revised 1/26/2014

2019-2020 Organizational Structure

HISTORY OF THE COLLEGE

In the spring of 1894, Texas College was founded by a group of ministers affiliated with the Christian Methodist Episcopal Church. The founding represented the start of the educational process for a group of disenfranchised individuals in the area of East Texas, City of Tyler.

The Charter as originally issued July 1, 1907, indicates that the name of the corporation was established as "Texas College." The exclusive educational direction was to include the education of youths, male and female, in all branches of a literary, scientific and classical education wherein [all] shall be taught theology, normal training of teachers, music, commercial and industrial training, and agricultural and mechanical sciences.

On June 12, 1909, the name of the college was changed from Texas College to Phillips University. The noted change was associated with Bishop Henry Phillips, as a result of his leadership and educational interests for mankind. The name change was short lived and reportedly lasted until actions for a name reversal occurred in 1910 at the Third Annual Conference of the church. On May 1912 the College was officially renamed Texas College.

The subsequent years of the College were spent with refinements and enhancements of the educational enterprise. The Articles of Incorporation reflect such efforts with modifications and amendments during periods 1909 to 1966.

The College today complies with its founding principles with the right to offer instruction in the areas of Arts and Sciences, Humanities, Computational Sciences, Natural Sciences, Social Sciences and Education with preparation of teachers and the provision of instructional supports, to those in pursuit of an education.

Note: Information provided by Secretary of State Charter- July 10, 1907; Amendment- July 24, 1909; Amendment- March 14, 1918, Amendment-November 26, 1957; Statement –September 26, 1963; Statement of Change of Registered Agent –August 15, 1966 and Amendment –August 19, 1966.

MISSION STATEMENT

Texas College is a historically black college founded in 1894, by a group of CME ministers. Our mission, which continues to embody the principles of the Christian Methodist Episcopal Church, is to ensure that the student body experiences balanced intellectual, psychological, social and spiritual development, aimed at enabling them to become active productive members of society where they live and work.

CORE VALUES

To address the Mission, the College incorporates the core values of:

Academic Excellence - developing a culture of curiosity and creativity that will challenge the frontiers of teaching/learning; stimulate research; raise the level of analytical reasoning and inquiry; and enable students to acquire leadership, human relations, communication, and technology skills.

Integrity - instilling the pursuit of character, honesty, and sincerity of purpose as the moral rubrics upon which the behaviors of our graduates and College family are anchored.

Perseverance - implanting diligence, enterprise, and pride in the application of skills, knowledge, and abilities developed during the course of study at Texas College.

Social Responsibility - promoting in the College community a conscious awareness that we are all stewards of the resources entrusted to our care.

Tolerance - emphasizing openness to divergent points of view, applying an eclectic approach to rational and analytical thinking.

Community Service - encouraging self-extension in service to others as the heart and soul of our educational enterprise.

INSTITUTIONAL OUTCOMES

It is significantly important that the direction, scope and focus of the institution be shared and understood with stakeholders of the College i.e., students, community of friends, faculty and staff, alumni and Board of Trustees. For this purpose, Texas College has established four areas as the essential direction of institutional outcomes. They include:

- Having students gain a command of the use of communicative skills, both written and verbal;
- Teaching students to become critical thinkers in the use of content knowledge and beyond;
- Having students involved in service project and social responsibilities that assist in skill development; and

- Providing students with the knowledge and experiential learning that will assist them in becoming productive citizens, i.e., individuals who can assist with the development of others where they live and work.

OPEN ADMISSION POLICY

Students entering the four-year baccalaureate degree program are expected to have a minimum cumulative grade point average of 2.00 or its equivalent. Students with less than a 2.00 cumulative grade point average at the time of admission will be directed to the association of arts program and must meet with the admission committee or be advised by that committee through correspondence.

ADMISSION

Texas College is a liberal arts postsecondary institution that offers the Associate of Arts, Bachelor of Arts and Bachelor of Science degrees. Texas College enrolls students with potential, desire and motivation to further their educational development in keeping with the mission of the College. Students interested in attending Texas College may apply online at <http://www.texascollege.edu>, or by requesting an application from:

Texas College
Office of Admission
2404 North Grand Avenue
Tyler, TX 75702-2298

Applications for admission may be mailed to prospective students by calling (903) 593-8311, ext. 2221 or (800) 306-6299.

Students seeking admission to Texas College may have the status of: *full admission*, *provisional admission*, *conditional admission* or *transient admission*. The admission status for each is defined as follows:

Full Admission. A fully admitted student is an individual who has completed all requirements for admission to the College. This includes a minimum grade point average of 2.0; a completed application for admission, official transcripts received from all institutions previously attended including high school, if less than 12 college credits. Additionally, a Texas College medical form must be completed along with proof of immunization and meningitis vaccination, if applicable.

Conditional Admission. Texas College has open admission with the expectation that students will enter with a minimum 2.00 cumulative grade average from high school or other institutions previously attended. However, students who apply with less than a 2.00 cumulative grade average and have other indicators that suggest an academic risk, may be accepted on a *conditional* basis. The College may accept students in this category, after a review by the Admission Committee. The student may have a prescriptive course of study and/or may be directed to enroll in the two-year Associate of Arts (AA) degree program in General Studies.

After completion of the Associate of Arts program, students are encouraged to enroll into one of the Baccalaureate degree programs.

Provisional Admission. Provisional admission may be granted when all documentation for full admission have not been received from institutions previously attended, i.e. high school, college, university, etc. Students admitted in the provisional status must submit all official documents (high school/GED transcript, college/university transcripts) by the close of business on the 12th class day of the initial semester they are enrolled. Students whose records are not received within the allotted time period will not be granted regular admission.

Transient Admission. Applicants seeking to register for courses to be transferred to another college or university in which they are regularly enrolled will be admitted as transient students. The transient student may not be registered for more than two consecutive semesters. The transient student must complete a formal application for admission and complete the regular registration process. Transient students are not eligible to receive financial aid from Texas College.

ADMISSION REQUIREMENTS AND PROCEDURES

Admission Requirements for Entering Freshman. A student desiring to enter the freshman class must have graduated high school or have successfully completed the General Educational Development (GED) Test, with no prior attendance at a postsecondary institution following graduation. A student entering the freshman class must have completed a minimum of 22 credits, adopted from Texas Education Agency (TEA) minimum High School Program (HSP) of high school course of study. One high school unit is equivalent to 36 weeks of class work in high school. The distribution of units should be as follows:

English Language Arts.....	4.0 credits
Social Sciences.....	3.0 credits
Mathematics	3.0 credits
Science	3.0 credits
Academic Elective	1.0 credit
Economics.....	0.5 credit
Physical Education.....	1.0 credit
Speech.....	0.5 credit
Fine Arts.....	1.0 credit
Elective Courses.....	<u>5.0 credits</u>
Total	22.0 credits

A minimum overall grade point average (GPA) of 2.00 is required for students entering the freshman class. Prospective students whose GPA is lower than 2.00 may be granted *conditional admission* after a review of their records by the Admission Committee. If approved for admission, the student may enroll in the two-year Associate of Arts (AA) degree program in General Studies. After completion of the Associate of Arts program, students are encouraged to enroll into one of the Baccalaureate degree programs.

Each entering freshman student is required to submit the following credentials to be considered for enrollment at Texas College. The items include: A completed application for admission; an official high school transcript; and official transcript(s) from all colleges and/or universities previously attended through dual enrollment.

In addition to the requirements outlined above, each entering freshman student may submit the Scholastic Aptitude Test (SAT) or American College Test (ACT) scores. All entering freshman students (with less than 12 credit hours) is required to take an institution approved assessment test prior to registration for the purpose of determining correct placement in select core required courses.

Students who require improvement in basic skills will be referred to the Student Learning Center (SLC). The SLC provides remedial and academic support that assists with retention and development towards academic enrichment. The SLC offers assessments in reading, writing and mathematics for determining where assistance may be needed.

Admission Requirements for Homeschooled Students. Texas College acknowledges the academic pursuits of students who are homeschooled. Homeschooled applicants are required to submit the following:

- A completed application for admission;
- A notarized copy of the official home-school transcript showing date of graduation with course requirements that meet the State of Texas graduation requirements as approved by the Texas Education Agency;
- An official GED certificate with score report (if applicable); and
- Home-schooled applicants may submit Scholastic Aptitude Test (SAT) or American College Test (ACT) scores.

Admission Requirements for Transfer Students. A transfer student is defined as a candidate for admission who enrolls at Texas College after having attended, or completed course work at a college or university. Transfer students must submit the following information to be considered for admission. The information includes:

- A completed application for admission;
- Official high school/GED transcript (if less than 12 hours completed at another postsecondary institution); and
- Official college/university transcript(s) from all institutions previously attended.

For admission consideration, transfer students must not be on academic suspension or expulsion at the time of the request for admission. Additionally, transcripts from schools abroad must be accompanied by an evaluation performed by a U.S. credentialing agency in order to determine credit transferability. Transcripts and official records must be received by the Office of Admission, directly from the sending institution.

TRANSFER STUDENTS & CREDITS

Admission may be granted to a student who took courses equivalent to those at Texas College while attending another college/university. The courses being transferred for credit toward a degree at Texas College must have been completed at an accredited college and/or university. The transfer student applicant also must complete the regular Application of Admission and meet the admission requirements at Texas College, except that the transfer student must only attest to having graduated from high school or completed the GED by indicating that on the application. An exception, however, is that a student transferring with less than 12 hours must submit evidence of the high school transcript or GED.

Courses pursued on the two-year college level may not be credited toward upper level (junior and senior) degree requirements. Academic work completed six or more years prior to enrollment may not be used to satisfy major and/or minor degree requirements. In order to complete a degree program at Texas College, a minimum of 25 percent of the semester credit hours required for degree completion must be earned through instruction at Texas College.

Transfer Credit. The transfer student will generally have credits earned that may be considered at the time of admission. Transfer credits may be accepted from regionally and nationally accredited colleges or universities. All official transcripts from previously attended colleges or universities must be received before an official evaluation is considered complete. Students who have completed post-secondary work outside the United States are required to provide a commercial evaluation of all course work completed. There is no assurance that any and all transfer credits are applicable or transferrable to the degree programs at Texas College.

A complete transfer application for admission includes:

1. Application for Admission;
2. Application fee (non-refundable) in the form of a money order. Personal checks are not accepted; and
3. Official college transcript from ALL colleges/universities attended.

Additional requirements for admission include:

1. Room reservation fee in the form of a money order, made payable to Texas College (if applicable);
2. Medical examination (completed by a physician);
3. Proof of health insurance;
4. Copy of immunization records;
5. Copy of social security card; and
6. Proof of meningitis shot (or waiver).

Undue delay of admission to the college may be prevented if the official transcript(s) and application for admission are submitted at least 30 days prior to the opening of the session in which the student wishes to enter. New and transfer students whose credentials have failed to

reach the college by the 12th class day may be administratively withdrawn. Transcripts and other supporting data will not be returned to the applicant.

Advanced Placement Credit. Students from high schools with the Advanced Placement program may contact the Office of the Registrar for evaluation of transferable credits that may be awarded as a result of participation in the AP program. Credit will be awarded at Texas College for AP courses based on the final official test scores. The following are acceptable test scores: three (3); four (4); or five (5).

Credit for Military Service. Veterans with at least one year of military service may qualify for prior learning experiences. Veterans should submit official copies of service records for evaluation prior to enrolling. The evaluation of military credits will be guided by the evaluation of academic credit prepared by the American Council on Education (ACE).

Readmission to the College. Readmission to the College is required when a student has been inactive or experienced a break in service for one or more semesters from the College. When this occurs, the student must reapply for admission by completing an Application for Admission and submitting official transcripts from all colleges or universities in which the student was enrolled while not enrolled at Texas College, if applicable (grades and grade averages are not transferable). Students applying for readmission should note that:

- A completed application for admission is required;
- Official transcripts from all colleges or universities in which the student was enrolled while not enrolled at Texas College, if applicable, are required. Transcripts must be received directly from the sending institution;
- Provisions listed in the current College catalog at the time of reenrollment must be adhered to; and
- Any course substitutions transferred from another college/university may not be used to satisfy degree requirements in a major or minor.

Admission of International Students. Texas College adheres to federal law when admitting non-immigrant international students; this is applicable to full-time study only. An applicant for admission from a foreign country must submit credentials to the Office of Admission prior to the semester in which the applicant desires to attend. Credentials of international students are evaluated according to the general regulations governing admission to Texas College. International students must comply with all rules and regulations (federal laws) for non-immigrant students. The items listed below are requirements to be met or submitted by prospective international students before the Certificate of Eligibility (I-20) form is issued by Texas College. All prospective international students must have the following:

- An equivalent U.S. high school diploma or General Certificate of Education that has been evaluated by the Wall Education Services (WES) or International Academic Credential Evaluators Incorporated. Prospective students are responsible for the submission of transcripts for their official evaluation;

- Official transcript from both high school and all colleges/universities previously attended;
- *Test of English as a Foreign Language* (TOEFL) score. A score of 550 is required for the paper exam or a score of 213 for the computer and Internet-based versions;

A medical examination report completed by a licensed physician. This must be submitted in accordance with the U.S. Department of Health requirements; and

- A notarized letter of financial support and advanced payment of all tuition and fees for the academic year of entry.

Students will receive the I-20 form required to obtain an F-1 Visa once full admission has been determined and payment has been made for the academic year to the Office of Business and Finance.

Admission of International Transfer Students from U.S. Institutions. International students who have been in attendance at a U.S. postsecondary institution(s) must submit the following:

- A completed application for admission;
- Official college/university transcript(s) from all institutions previously attended. Transcripts must be received directly from the sending institution(s);
- Transcripts from schools abroad accompanied by an evaluation performed by a U.S. credentialing agency in order to determine credit transferability, if less than 12 hours are being transferred; and
- A notarized letter of support/sponsorship and advance payment for the academic year tuition and fees.

International Students must not be on academic suspension or expulsion at the time of the request for transfer. The Texas College I-20 will be issued once eligibility to transfer has been confirmed and payment for tuition and fees has been made to the Office of Business and Finance.

BUSINESS AND FINANCE INFORMATION

The Office of Business and Finance serves to achieve the College's mission through the efficient operation and use of physical and human resources, while providing financial sound management of the College's financial resources. The functional areas of the Office of Business and finance exists to provide courteous, customer-focused, cost-effective, professional and innovative services and leadership to students, faculty, and other constituents of Texas College in a manner that warrants the highest degree of public confidence in our integrity, efficiency and fairness.

TUITION AND FEES

Texas College reserves the right to adjust College costs during the year, should conditions so warrant and with timely notification(s) to students. Students whose accounts are not current with the Office of Business and Finance and whose financial aid forms are incomplete, incorrect, or late may be denied any and all College services. A student may not receive transcripts, grade reports, or other educational records until all accounts with the College are satisfied.

Tuition and Required Fees. This consist of the annual cost of tuition, student fees, room and board, when applicable and other charges for the upcoming year Tuition and fees do not include amounts for books, supplies, travel expenses, and other miscellaneous personal items. Students are expected to meet their financial obligations. The College reserves the right to withhold services and accommodations, deny transcript requests and/or place students on financial hold if payments are not made as scheduled. The Office of Business and Finance sends monthly statements to students.

Payments to Texas College for tuition and fees should be made by certified or cashier's checks, drafts, money orders, or credit/debit cards. Online credit/debit card payments can be made at www.texascollege.edu. Texas College does not accept personal checks. Cash should not be mailed to the College. Texas College disclaims any liability for cash (currency) that is sent through the mail. Payments should be sent to Texas College, Office of Business and Finance, 2404 North Grand Avenue, Tyler, TX 75702

Library Fee. The cost of purchasing library materials, on-line information resources, and other services for students.

Health Services Fee. The cost of providing medical services at the college's health service clinic.

Student Activity Fee. The cost of financing, constructing, operating, maintaining, and improving recreational sports facilities and programs.

Student Facilities Fee. The cost of financing renovating, operating, maintaining, and improving campus facilities.

Student Technology Fee. Student access to systems of instructional computing and information technology services. It also includes new student ID (swipe) cards.

Graduation Fee. Students are required to pay a non-refundable graduation fee payable 30 days prior to their scheduled Commencement date.

Financial Obligations. Students whose accounts are not current with the Business Office and students whose financial aid forms are incomplete, incorrect, or late may be denied any and all College Services. A student may not receive transcripts, grade reports, or other educational records until all accounts with the College are satisfied.

Commuter Meal Cards. May be purchased directly from the Business Office.

OTHER NON-REFUNDABLE FEES

Room Reservation Fee. Applicants for campus housing must pay a non-refundable room reservation fee.

Re-admittance Fee. Students who have a break in service for one semester or longer may be assessed a re-admittance fee.

Parking Fee. Covers the cost of parking on campus. Students who operate a vehicle on campus are required to obtain a parking decal.

Late Registration Fee. Students who complete the registration process after the dates indicated for registration on the Academic Calendar are assessed a late fee. The late registration fee is required at the time of registration.

Overload Fee. A fee is assessed for each credit hour in excess of the normal load of 18 credit hours per semester. Students must get prior approval from the Office of Academic Affairs to register for additional classes over the permitted 18 hours.

Course Audit Fee. Those students enrolled as “auditors” of a class are charged an audit fee per course. Audit fees are non-refundable.

CLEP Credit Fee. A course substitution fee for individuals who pass general education requisites by way of the College Level Education Program (CLEP) tests.

Advanced Placement Program Fee. The Advanced Placement (AP) program is a cooperative educational endeavor between secondary schools and colleges and universities administered by the College Board Advanced Placement Program. High schools that participate in the program offer special AP courses, followed by the AP examinations in early May. Texas College awards a minimum of three (3) credits to students who earn a score of three (3) or higher on the AP examination. The course(s) credited and the number of credits offered will depend on the academic major not to exceed six hours, AP subject area, and departmental recommendation. The College charges the regular per credit hour fee.

Transcript Fee. Each student is entitled to request an official transcript at the required fee.

Graduation Fee. Students are required to pay a non-refundable and non-transferrable graduation fee prior to their scheduled commencement date.

Refund Policy. A refund is defined as financial aid and/or cash payments minus the amount retained by the institution for the student's actual period of enrollment. Any student who withdraws from the institution may be eligible for a refund of institutional charges, according to the published refund policy. However, a student who received financial aid and withdraws from the institution may be required to refund all or a portion of the financial aid awards to the appropriate financial aid programs.

The date of withdrawal for refund is established by the date on the official withdrawal form, unless otherwise informed by the College’s administration. Listed below are the *pro rata* refund calculations that will apply to all students. Tuition, fees, institutionally contracted room and board, and other school charges are refunded as follows:

Up to and including the 12th Class day	90%
Within week 4	70%
Within week 5	60%
Within week 6	50%
Within week 7	40%

After week 7, zero percent (0%) of living expenses are prorated according to weeks of enrollment completed in a 16-week semester. Half the academic year’s allowance for books and supplies is considered to be used at the start of each term.

The effective date of withdrawal will be the date when the withdrawal is officially completed and recorded in the Office of the Registrar. In order to receive a partial refund, the official withdrawal must be completed and recorded in the Office of the Registrar on or before the 12th class day for the fall or spring terms. For the summer term the withdrawal must be completed by the second day of the summer term.

If the college determines that a student did not begin the withdrawal process or otherwise notify the college of the intent to withdraw, the college may determine the appropriate withdrawal date.

The college may use the student’s last date of attendance at an academically-related activity as the student’s withdrawal date. The school must document that the activity is academically-related and document the student’s attendance at the activity. Examples of academically-related activities include, but are not limited to, an examination, a tutorial, computer-assisted instruction, academic counseling, or turning in a class assignment.

FINANCIAL AID

Texas College provides equal educational opportunities for all students, and the policy of equal opportunity is fully implemented in all programs. All financial aid is administered by the Office of Financial Aid.

Students can apply for financial aid from a variety of sources to meet their educational expenses. This aid is based on need/or merit. Students must meet the Satisfactory Academic Progress requirements in order to receive federal financial aid. All financial aid applicants must be accepted for admissions by Texas College before aid will be processed. All academic transcripts from previously attended colleges must be evaluated by the Registrar’s Office before aid will be processed. Financial Aid will not be processed for students who are not fully admitted to the college. Students who are transient are not eligible for aid. The goal of the Office of Financial Aid is to provide financial assistance to students to assist them in meeting their educational costs.

Eligibility Requirements. The student financial aid eligibility is determined by the Department of Education regulations. In order to be eligible to receive federal financial aid, students must meet the following requirements:

- Be a U.S. citizen or eligible non-citizen;
- Have a valid Social Security Number;
- Be officially admitted to Texas College;
- Be registered with Selective Service, if required;
- Be enrolled at least half-time in a degree program;

Must sign a statement, which is located on the Free Application for Federal Student Aid (FAFSA), that states federal student aid will be used only for educational purposes:

- Not be in default of any federal funds or owe a refund/overpayment on a federal grant;
- Must maintain Satisfactory Academic Progress (SAP) in an eligible course of study in accordance with the College's guidelines; and
- Not have been convicted of possessing or selling illegal drugs.

The following deadlines are offered to assist in planning. They are:

**Priority Deadlines for
Federal Financial Aid (grants and loans)**

Fall:	June 1
Spring:	October 1

Priority Deadlines for Scholarships

Fall:	June 1
Spring:	October 1

Application Process. All students interested in federal financial aid must file the *Free Application* for Federal Student Aid (FAFSA). The form can be obtained through high school counselors, libraries, or any college, university, or career school. Students can file either the paper FAFSA (Texas College code: 003638) or file on-line at www.fafsa.ed.gov. Texas College recommends that students file on-line. Filing on-line and transmitting the FAFSA electronically expedites the financial aid process by weeks. Returning students can file a FAFSA Renewal Application if they filed a FAFSA last year. Students need to check with the Financial Aid Office for the priority deadline date(s).

Types of Financial Aid. Texas College continuously reviews its financial aid program in an effort to assist needy and worthy students with the rising costs of a college education. The College offers its students the following types of financial assistance based on the institution's eligibility to participate in the various programs.

GRANTS

Type: *Federal Pell Grant*

Eligibility: Undergraduate students demonstrating need by the Federal Pell Grant formula

How to apply:

1. Complete the Free Application for Federal Student Aid
2. Submit required documents to the financial aid office

Amount: Maximum award amount per year \$ 5,730.00

Deadline: Prior to the start of each semester

Type: *Federal Supplemental Educational Opportunity Grant (SEOG)*

Eligibility: Undergraduate students whose need analysis exhibits excessive need

How to apply:

1. Complete the Free Application for Federal Student Aid
2. Submit required documents to the financial aid office

Amount: Varies, generally \$ 3,000.00 per year

Type: *Federal Work Study*

Eligibility: Undergraduate students who have demonstrated financial need

How to apply:

1. Complete the Free Application for Federal Student Aid
2. Submit required documents to Financial Aid Office
3. Complete and submit Federal Work study contract to the Financial Aid Office
4. Attend Work Study orientation

Amount: Minimum wage, up to 20 hours per week, paid monthly

Type: *TEACH Grant*

Eligibility: Teacher Education majors, Cumulative GPA of at least 3.25, be enrolled in a Teach Grant eligible program

How to apply:

1. Complete the Free Application for Federal Student Aid
2. Submit required documents to the financial aid office
3. Complete TEACH Grant counseling
4. Complete and sign the TEACH Grant Agreement to Serve

Amount: \$ 4,000.00 per year

Type: *Texas Equalization Grant (TEG)*

Eligibility: Texas Resident, show financial need, not receiving an athletic scholarship, register for selective service or exempt from registration

How to apply:

Complete the Free Application for Federal Student Aid

TEG Renewals:

1. Complete the Free Application for Federal Student Aid
2. Have an overall 2.5 GPA
3. 75% completion of attempted hours for the year and completion of 24 hours or the year

Amount: Varies, generally \$3,239 per year

Type: *Texas Work Study (TWS)*

Eligibility: Texas residents, show financial need, register for the Selective Service or a signed statement for exemption, enroll at least half-time, not a recipient of an athletic scholarship

How to apply:

1. Complete the Free Application for Federal Student Aid
2. Submit required documents to Financial Aid Office
3. Complete and submit Federal Work study contract to the Financial Aid Office
4. Attend Work Study orientation

Amount: Minimum wage, up to 20 hours per week, paid monthly

Loans:

Type: *Federal Direct Loans (Subsidized and Unsubsidized)*

Eligibility: Need eligibility must be established by the College's Financial Aid Office

How to apply:

1. Complete the Free Application for Federal Student Aid
2. Submit all required documents to the Financial Aid Office
3. Complete the Entrance Counseling, Financial Aid Awareness, and Master Promissory Note

Amount: **Dependent Students**

Direct Loans Annual Loan Limit

1st year \$ 5,500 (no more than \$ 3,500 may be subsidized)

2nd year \$ 6,500 (no more than \$ 4,500 may be subsidized)

Independent Students

Direct Loan Annual Loan Limit

1st year \$ 9,500 (no more than \$3,500 may be subsidized)

2nd year \$ 10,500 (no more than \$ 4, 500 may besubsidized)

Type: *Federal Plus*

Eligibility: Parent of dependent student

How to Apply:

1. Student completes Free Application for Federal Student Aid
2. Parent completes plus pre-approval process, via phone or internet
3. Contact the Financial Aid Office for more information

Amount: Parents of undergraduates may borrow up to the entire cost of attendance minus any other financial aid received.

Type: *College Access Loan (CAL)*

Eligibility: Texas Resident, meeting SAP requirements, good credit standing

How to Apply:

You may apply online at www.hhloans.com

Amount: Students may borrow no less than \$100.00 and up to the cost of attendance minus any other aid.

Type: *Smart Option Loan (Sallie Mae)*

Eligibility: Credit Based

How to Apply:

You may apply at www.salliemae.com

Type: *Institutional Scholarship and Grant Aid*

Texas College seeks, acknowledges, and awards those students who demonstrate academic, musical, athletic, or leadership promise. Students applying for and/or receiving institutional awards must complete the application process for financial aid (file a Free Application for Federal Student Aid [FASFA]) and submit all required documentation to the Office of Financial Aid.

The provisions of the institutional grant-in-aid are limited to the direct costs of attending the College; that is, tuition and room and board. If other financial assistance (when combined with the institutional grant-in-aid award) exceeds the direct costs, the institutional grant will be reduced accordingly. Students may receive up to two institutional grant-in-aid awards unless authorized by the Scholarship Committee. Grant-in-aid awards are not redeemable as cash, but are offered for the exclusive purpose of meeting students direct educational costs

CRITERIA FOR INSTITUTIONAL SCHOLARSHIPS AND GRANT-IN-AID

To be eligible for institutional grant-in-aid, the student must:

- Must complete a Free Application for Federal Student Aid (FASFA);
- Be a fully admitted, full-time student enrolled in at least 12 semester hours each fall and spring semester;
- Maintain enrollment in at least twelve (12) semester hours during the entire semester to keep the scholarship for the current semester;
- Maintain Satisfactory Academic Progress; and
- Cannot have had any disciplinary action taken or pending for conduct or judicial issues.

SATISFACTORY ACADEMIC PROGRESS POLICY

Satisfactory Academic Progress (SAP) is the term used to denote a student's successful completion of coursework toward a degree. Students who fall behind in their coursework or fail to achieve minimum standards for a grade point average and completion of classes may lose their eligibility for all types of federal and state aid (includes grants, work-study, Direct and Plus Loans).

SATISFACTORY ACADEMIC PROGRESS COMPONENTS

Annual Evaluation

Satisfactory Academic Progress evaluations will be completed at the end of each academic year and cannot take place until final grades are posted. This review will determine eligibility for the upcoming summer, fall and/or spring semester. Every student who applies for financial aid must be meeting Satisfactory Academic Progress, regardless of whether they are a first-time applicant or have received financial aid in the past. Any financial aid assistance offered for the year ahead is subject to cancellation if the minimum standards of satisfactory academic progress were not met the prior year.

Incoming freshman and new transfer students will be considered for financial aid for one academic year prior to the evaluation of Satisfactory Academic Progress. At the end of the first academic year of attendance at Texas College, all students will be evaluated based on the standards of their academic level. Students who transfer to Texas College will not be evaluated until they have completed two semesters.

HOW SAP IS REVIEWED

(There are three measures Qualitative, Quantitative, and Maximum Time Frame)

In calculating/reviewing SAP, credit hours and grades attempted towards the chosen major/program will be considered. Grades included, but are not limited to: courses passed, courses failed, courses in which the student withdraws, repeated courses, transfer/accepted courses, remedial coursework and courses for which the student did not receive financial aid.

QUALITATIVE MEASURE (GPA)

Qualitative Measure Cumulative Grade Point Average Table				
Cumulative Hours Attempted	1-15 Hours	16-30 Hours	31-45 Hours	46 Hours and Above
Minimum Cumulative Grade Point Average	1.50	1.70	1.90	2.00

QUANTITATIVE MEASURE/PACE OF PROGRESSION

In calculating the quantitative measure, we measure the Pace of Progression in which the student is progressing. The calculation is completed by dividing the total major/program credit hours earned by the cumulative major/program hours attempted. (Example: total attempted credit hours for major/program= 43 and total credit earned hours = 24. As a result the calculation would be $24/43 = 55\%$. The student only has 55% completion rate which does not meet SAP). SAP will be met if the student is achieving the appropriate cumulative GPA (see cumulative grade point average table) and the Pace of Progression is equal to 67% or higher and the student has not reached 150% maximum time frame allowed from their degree program (see maximum hour table below).

As an example, the following table shows the minimum number of credits a student must complete with an A, B, C, or D on a cumulative basis to be eligible for federal/state financial aid.

Maximum Hours Table			
Attempted Hours	Completed Hours	Attempted Hours	Completed Hours
1	1	11	8
2	2	12	8
3	2	13	9

4	3	14	10
5	4	16	11
6	4	17	12
7	5	18	12
8	6	19	13
9	6	20	14
10	7	21	14

Maximum Hours Allowed. The total attempted credit hours must not exceed 150% of the U.S. Department of Education approved length of the student’s major/program. Students may receive federal student aid if they have attempted below 150% of the maximum federal student aid credit hours approved in their major/program. In order to determine the total numbers of credit hours approved for the program, multiply the total numbers of program credit by 1.50. (Example: If the degree program requires/approved 120 credit hours for the length of the program, multiply 120 credit hours x 1.50 = 180. The maximum allowable attempted credit for the program in this example = 180 hours.) Credit hours attempted includes ALL credit hours pursued, earned, dropped, and failed. All pursued, earned, dropped and failed credit hours are counted as attempted credit hours even if the student did not receive financial aid.

Financial Aid Probation: (per regulations must be reviewed at the end of each semester). A student will be placed on financial aid probation if there Satisfactory Academic Progress appeal is approved. During the probationary period, a student remains eligible to receive financial aid funding. During the probationary term, a student must maintain the required cumulative GPA and completion rate. Failure to attain the required GPA and/or the rate of completion will result in the suspension of financial aid eligibility. If a student does not attain the required GPA and/or completion rate but successfully follow the academic plan, he/she may submit a subsequent appeal showing that he/she has met the terms of the academic plan.

How to Submit Financial Aid Appeal. Students who do not meet Satisfactory Academic Progress (SAP) standards may have the right to submit an appeal. The financial aid committee will respond in writing with the results of the appeal and explain the requirements a student must meet to re-establish eligibility for state/federal financial aid by the established deadline. Submitting an appeal does not guarantee the student will regain financial aid eligibility.

Appeals will be reviewed by the Financial Aid Appeals Committee. The Committee will issue a decision in writing to the student. If the appeal is approved, the student will be placed on Financial Aid Probation for one term and will be expected to successfully complete the appropriate number of credits for their level of enrollment and earn the appropriate GPA. At the end of the term, the student’s number of hours completed and cumulative GPA will be sent to the Office of Financial Aid by the Office of the Registrar as proof of SAP. If the student does not meet SAP standards by the end of the one semester, aid will be denied for future terms until SAP standards are met.

If an appeal is denied, the student will be responsible for their own educational costs. After completing a term, the student may submit another appeal and provide a transcript as supporting documentation. Then if SAP standards are met, aid will be reinstated for future semesters. The completion of additional self-paid semesters or filing an appeal does not guarantee regaining aid eligibility. A student MUST show academic progress.

Students failing to meet the minimum SAP requirements with extenuating circumstances may submit a Financial Aid Appeal with supporting documentation to the Financial Aid Appeals Committee.

Examples of extenuating circumstances are but not limited to

- Prolonged illness, medical conditions, or injury to student or immediate family member
- Death of an immediate family member
- Extenuating circumstances beyond the student's control

Examples of Supporting Documentation are but not limited to

- Physician's letters and hospitals records (must include dates of illness and recovery time)
- Death certificate or obituary
- Court documents or police reports
- Letters from a third party such as attorneys, professional counselors etc., on his/her letterhead

The student must provide the following in order to submit a Financial Aid Appeal

- Complete the Financial Aid Appeal form.
- Submit a letter that includes the following:
 1. Why the student failed to meet the SAP requirements (For example: personal illness)
 2. What has changed in the student's situation that will allow the student to demonstrate progress by the next SAP evaluation (For example; recovered from illness)
 3. What are the mitigating circumstances in which you are appealing based upon, along with supporting documentation

If the Financial Aid Appeal is approved, and SAP requirements are attainable by the end of the semester. The student will be placed on "Probation" and will be eligible for financial aid the corresponding semester. SAP will be reviewed at the end of the semester of eligibility. If the student is not meeting SAP requirements, the student is no longer eligible for state/federal aid. The student must attend Texas College for one semester at his/her own expense and meet all SAP requirements.

Students who do not meet Satisfactory Academic Progress (SAP) standards may have the right to submit an appeal. The financial aid committee will respond in writing with the results of the appeal and explain the requirements a student must meet to re-establish eligibility for

state/federal financial aid by the established deadline. Submitting an appeal does not guarantee the student will regain financial aid eligibility.

Applying for Reinstatement. If a student fails to meet the SAP requirements and does not have mitigating circumstances to appeal. The student may apply for reinstatement after completing the following requirements:

- Enrolling in at least 6 credit hours of courses required for their degree program.
- Pay his/her tuition and fees without the use of state/federal financial aid.
- Complete all attempted courses with at least a “C” or better. (Grades of W, I, D, or F, do not qualify for re-instatement)

Once the student has met all three requirements, the student may submit an appeal form based on the semester’s final grade report. All requests for reinstatement will be reviewed and a decision will be made by the Financial Aid Appeals Committee.

Appeal without an Academic Plan. The Financial Aid Appeals Committee will determine if a student is able to meet the Satisfactory Academic Progress requirements by the end of each semester. If it is determined the student is able to meet Texas College’s SAP requirements, the student may submit a Financial Aid Appeal. If the Financial Aid Appeal is approved, the student will be placed on probation. A probationary status means the student is eligible for financial aid for one academic year. In order to meet the Satisfactory Academic Progress requirements, the student must earn the appropriate cumulative GPA (see Cumulative Grade Point Average Table), and maintain a 67% completion rate for all attempted courses not to exceed 150% (Pace of Progression) of the degree program.

Appeal with an Academic Plan: (must adhere to plans requirements and is reviewed at the end of each semester). An appeal with an academic plan is necessary in select instances. The student must adhere to the Academic Plan to ensure that they will meet Texas College’s SAP requirements by the end of each semester without exceeding 150% of the degree program. The student must submit a signed copy of the Academic Plan along with the Financial Aid Appeal. If the appeal is approved, the student will be placed on Probation with an Academic Plan. A probationary status means the student is eligible for financial aid as long as the student adheres to the Academic Plan. Students, who are following an Academic Plan, will need to meet with their faculty advisor each semester prior to registering for classes.

Please note: *If the Financial Aid Appeal is approved, the Academic Plan requires 75% successful completion. The student cannot have any drops, withdrawals, and the student must maintain the required GPA (see Cumulative Grade Point Average Table).*

TRANSITIONAL/REMEDIAL COURSES

A maximum of 30 credit hours of remedial credit hours will be used to determine the enrollment status for financial aid. After a student has attempted 30 credit hours of remedial credit hours, the student cannot receive financial aid for remedial credit hours. The remedial credit hours will not count in the enrollment status or cost of attendance for financial aid purposes.

WITHDRAWALS

For a student who stops attending class officially or unofficially, the last date of a student's attendance in each class will be used to calculate how much of his/her financial aid was earned for the semester. Students who withdraw from all classes will receive a grade of "W."

UNOFFICIAL WITHDRAWALS

Students who receive financial aid and stop attending classes, never start attending classes, or fail to withdraw from classes due to never attending classes will receive a grade of *FX* for all classes for the semester. If the last date of attendance cannot be determined, the College will use the 60 percent point of the semester as a determination of the last date of attendance; this will count towards the student's 150 percent maximum timeframe (pace of progression) of the degree program period.

Completion Rate. Each student is required to successfully complete 67% of all credit hours attempted, including transfer hours accepted towards the student's major. Attempted hours are credit hours that the student is enrolled in after the drop/add period and includes grades of A, B, C, D, F, I and W.

Repeated Courses. All repeated courses will be counted as attempted hours in calculating the maximum allowed timeframe. Financial aid may be lost if the student fails a repeated course. A student may repeat a course to improve a prior grade as long as satisfactory progress is being maintained. Eligibility only applies to repeating a course one time.

Remedial/Developmental Courses. A student who is required to enroll in remedial/developmental course work may attempt up to 30 credit hours in remedial/developmental course work (per federal guidelines). Remedial course work will not be counted in the maximum timeframe for the student's program of study.

Part-time Students. Cumulative GPA requirements are the same as for full-time students. The number of semesters required to complete the program will depend on hours registered. Students must successfully complete the majority of credit hours attempted each semester. However, no student will receive financial aid once 150% of the required credit hours to complete the program have been attempted.

Financial Aid Suspension. A student who fails to meet the standards at the end of the academic year will be ineligible for financial aid beginning the next semester of attendance. A student is automatically ineligible for financial aid when they receive grades of "F" in all courses attempted. In evaluating satisfactory progress, a grade of "I" will be considered a "F." Students who pre-register before grades are evaluated and who use financial aid to defer tuition and fees; may owe a financial aid repayment if they do not maintain satisfactory academic progress and become ineligible for financial aid once grades are posted and reviewed.

Financial Aid Suspension does not prevent a student from enrollment but it does prevent receiving aid. However, the student should be aware that the college's policies for academic

eligibility and financial aid eligibility closely mirror one another. Both are measures of satisfactory academic progress intended to encourage behavior which leads to academic success.

STUDENT SERVICES

Students have opportunities for involvement in a wide range of activities including residence hall living, religious services, leadership training programs, social and recreational activities, service programs in the community, student organizations, and athletics. They may also participate in the administration and operation of various student activity programs.

Residence Life. The College recommends that students with less than 60 hours live in the residence halls. Upon arrival to campus, students must register and then transition to residence halls where they have been assigned. A residence center room inventory form and the student personal data record form are provided and must be completed before keys are issued. All disciplinary matters in the residence halls are subject to the judicial proceedings outlined in the Student Handbook. Failure to comply with regulations cited in the Student Handbook may result in disciplinary actions up to and including immediate suspension from the College. Any student who withdraws or is suspended from the College must vacate the residence hall and the campus immediately. Contact the Office of Student Affairs for additional information.

Dining Services. The dining services offers students a healthy and balanced diet essential to physical well-being. All students who reside in College residence halls are required to purchase the College meal plan. Additionally, commuter meal plans are available; contact the Office of Business and Finance for more details.

Room and Board. When students move into a residence hall, they automatically enter into a contract for room and board throughout the respective academic year (Fall and Spring). Students who live in a residence hall are required to purchase the College meal plan.

Religious Life. In keeping with the mission of the College, students are encouraged to experience spiritual development by participating in various activities offered by the College. Such activities include, but are not limited to: college assembly, Bible study, worship services, lyceum programs and campus ministry activities.

Student Support Services. The Office of Students Affairs provides student support services that are consistent with the Mission of the institution. Moreover, the unit of Student Affairs works with and through the unit of Academic Affairs to provide diversified services that includes, but is not limited computer labs, writing programs, math programs, reading assistance, tutoring, advising, career services, library services and intramurals. All services are intended to promote student learning and assist in the developing of students.

Assistance for Students with Disabilities. Texas College provides assistance to students who self-identify in keeping with the American Disabilities Act (ADA). The College provides reasonable

accommodations and/or may direct students to vocational rehabilitation services offered by the State. Students should contact the Office of Academic Affairs to self-identify and request the type of service/support needed.

Health Services. Students, whether full-time or part-time, may receive limited medical care through the College's Clinic with proof of current enrollment. The College does not assume responsibility for long term medical care; nor does the College provide health insurance. Health insurance is the responsibility of the parents/guardians of students.

Athletics. The College offers recreational athletic opportunities for students in both intramural and intercollegiate sports. Activities in the intramural program may include basketball, flag football, softball, and volleyball. Intercollegiate sports may include football, men's and women's basketball, baseball, men's and women's track, men's and women's soccer, volleyball, and softball.

Library Services. The Dominion R. Glass Library provides services that promotes student learning and personal/professional enhancements. The library is a support of and supplement to the teaching learning process of the College. Support services include a variety of electronic media and computer laboratories equipped to enhance learning opportunities in keeping with the College's Mission. Students and faculty have access to library references and resources through search tools like the Library of Texas online. Through TexShare, a consortium shared database, students can read e-books (electronic copies of books) 24 hours a day. TexShare also provides Interlibrary Loans. Through this service patrons have access to items located at other college libraries. Library services include instruction in the form of orientations, information literacy, and bibliographic instruction, giving students a broad range of materials and services thus increasing their potential for becoming lifelong independent learners.

Student Learning Center (SLC). The SLC provides remedial and academic support that assists with retention and development towards academic enrichment. The SLC offers assessments in reading, writing and mathematics for determining where assistance may be needed.

Career Services. Career Services is a resource support that aids students' professional development in becoming productive citizens where they live and work. Career Services organizes career fairs and establishes relationships with employers on behalf of students. Services include campus interviews with potential employers; job listings of employment opportunities; a career information library; career counseling of undergraduates; referral to part-time and summer jobs when available; referral of graduating seniors and alumni to full-time positions, graduate schools and internships; interviewing skills preparation; and resume writing workshops.

Mail Services. Mail Services is a support to students residing on campus. The service allows students to maintain contact with parents and constituents. It is the option of the student to obtain a mailbox during business hours. A mailroom staff member will be on duty during the posted times to assist; only authorized personnel are allowed in the mailroom. All students' mail is sorted and placed in the mailboxes Monday thru Friday, and may be picked up during regular

hours. Students must present a valid student ID card to pick up parcels. Students can only pick up their own mail.

Texas College Identification Cards. As a safety measure, Texas College encourages students, faculty, staff and stakeholders to have in their possession and visible at all times, a validated Texas College Identification Card (ID). A validated identification card confirms that the holder of the card has access to the campus and select rights and privileges for the term designated. The ID card also validates current registration for an academic term for students enrolled at Texas College. If the ID card is lost or stolen, please see the Office of Business and Finance for the current fee charge for a replacement ID. Loaning the ID card to anyone, allowing other persons to use one's ID Card, or failure to present one's ID Card when requested by College officials is a violation of College regulations and subjects the holder and unauthorized user to disciplinary actions. Each student is personally liable for all obligations incurred by use of the ID card. The ID card is property of the College and may be requested at any given time by a College official.

Automobiles on Campus. The operation of automobiles on campus is a convenience and privilege provided to students and the general public. Students may operate automobiles on the College campus in accordance with College regulations. All vehicles operated on campus must display a current Texas College parking decal purchased from the Office Business and Finance. Vehicles not properly registered with the Office of Business and Finance or those found parked in violation of parking regulations may be removed from campus at the owner's expense. A citation or any other communication from a Security Officer is an official College notice. An individual who does not respond to such communication is subject to disciplinary action.

Campus Security. Campus Security is a support service that is designed to provide a safe and secure environment for students, faculty and staff. The function of security reports to the Office of Student Affairs. Campus security is responsible for traffic control, enforcement of college policies and security of the campus at large. Security is on duty 24 hours a day, seven days a week and serves the campus community in every way possible for safety, service and protection. The Office of Security works very closely with the Tyler Police Department, the Smith County Constable's Office, the Tyler Fire Department and all emergency services. Violations of campus regulations are handled by campus security. This service provides a safe environment for living and learning.

The College adheres to the regulations of the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act, codified at 20 USC 1092 (f) as a part of the Higher Education Act of 1965, a federal law that requires colleges and universities to disclose certain timely and annual information about campus crime and security policies. All public and private institutions of postsecondary education participating in federal student aid programs are subject to it. Violators can be "fined" up to \$27,500 by the U.S. Department of Education, the agency charged with enforcement of the Act and where complaints of alleged violations should be made, or face other enforcement action.

Extra-Curricular Activities. The College offers a variety of educational and professional experiences through extra-curricular activities. Extra-curricular activities are those which are beyond the classroom and are designed to assist with student learning and development. Such

extra-curricular activities include: College Concert Choir; College Band; Community Service; Student Government Association; and Pan Hellenic Organizations, to name a few. The Office of Student Affairs generally plans and work with extracurricular activities for the college.

Organizations. The Office of Student Affairs through the application process creates holistic experiences for the formation of organizations; approval is not an automatic process. The administrative cabinet will review all applications for approval consideration. The organizations are registered through the Office of Student Affairs with oversight provided by that office.

ACADEMIC POLICIES AND PROCEDURES

Course Credit. Texas College follows the general practice of higher education that a contact hour is a measure that represents an hour of delivered instruction. A semester credit hour is normally granted for satisfactory completion of one 50-minute session (contact hour) of classroom instruction per week for a semester of not less than fifteen weeks. With this formula, the college evaluates credit hours as follows:

Credit hours	Contact hours	Total minutes
1.0	15	750
2.0	30	1500
3.0	45	2250
4.0	60	3000

Course Load. A minimum of twelve (12) and a maximum of eighteen (18) semester hours of class and laboratory work constitute a normal course load during a semester. Students who enroll in more than 18 hours per semester will be charged an overload fee. Students enrolling for twelve (12) semester hours or more are classified as full-time students. Students enrolling in less than twelve (12) semester hours are classified as part-time students. Full-time students on academic probation may not enroll for more than fourteen (14) semester hours. If a summer session is offered, the maximum course loads for students will be six (6) semester hours or as designated by the Office of Academic Affairs for special programs.

Classification. Students are classified based on credit hours earned, as shown in table below:

Classification of Students

Classification	Credit hours
Freshman	0-29
Sophomore	30-59
Junior	60-89
Senior	90 +

Orientation. All students entering Texas College for the first time are encouraged to participate in orientation activities. Orientation provides students with an introduction to campus life before registration and classes begin. Orientation also includes placement testing for new students with less than 12 credit hours prior to registration.

Registration. Students generally register in person. Directions for the registration process are provided by the Office of the Registrar. In consultation with the appropriate advisor, a class schedule is prepared followed by the completion of the official registration form. A student becomes officially enrolled in a class by completing the registration process. A student is officially enrolled once they have cleared the Office of Business and Finance and have secured an official Texas College ID Card.

Early Registration. Students who are already enrolled at Texas College may register for the upcoming semester. The early registration period is identified on the Academic Calendar. All students who have completed early registration for courses are bound to the financial obligations as they relate to tuition and fees.

Late Registration. Late registration begins at the official start of classes. Students may continue to register for classes during the late registration period. Students cannot register for classes after the last day for late registration without the approval of the Vice President of Academic Affairs. Students may be charged a late registration fee.

Academic Advisement. Upon initial enrollment, every student is encouraged to declare a major at which time an academic advisor is assigned prior to the beginning of classes. The academic advisor provides the student with a degree plan and assists the student in course selections and degree audits. The academic advisor will guide students through their chosen degree plan to graduation.

Students should consult with the academic advisor about academic requirements, programs of study, and policies. All students assume the responsibility for planning a study program with the academic advisor in accordance with the academic requirements for the area of specialization selected. The individual student is encouraged to consult with the academic advisor in planning a class schedule for each semester. Students should follow a degree plan that is consistent with curriculum requirements in the catalog year of entry. Ultimately, it is the responsibility of each student to secure the degree plan and follow it to meet graduation requirements.

Add or Drop Courses. Students may change their initial schedule by adding or dropping courses within the time period specified in the Academic Calendar for each term. A student who wishes to change his/her class schedule after completing registration is responsible for securing a Drop/Add form. All changes must be approved by the faculty advisor and instructor, and in some special cases, the Vice President for Academic Affairs. The student then takes the completed form with appropriate signatures to the Office of the Registrar. A fee may be assessed for student initiated add(s) or drop(s). Students who attend class(es) for which they have not officially added to their course load, will not receive a grade. Students who discontinue a class without officially dropping, will receive the grade earned.

ACADEMIC RIGHTS

A student will have the following academic rights when properly enrolled as a student at the institution:

1. Performance evaluation based on a written syllabus.
2. Appropriate and open discussion, inquiry and expression, both in the classroom and in student/instructor conferences.
3. Freedom to take exception to the views presented in a classroom setting and to reserve judgment in matters of opinion.
4. Professional and ethical conduct from all institutional personnel.

Competent and Professional Instruction.

1. Competent academic advisement.
2. Protection against improper disclosure of a student's records, academic work, views, beliefs and political associations.
3. Information prior to registering regarding the costs of tuition, activity fees, lab fees, etc.
4. Accurate information regarding course offerings, programs, majors, transfer policy, and institutional requirements and expectations.
5. Accurate information regarding changes in course programs or institutional requirements and reasonable accommodation of those already enrolled in a program or classes.
6. The right to receive academic credit and/or academic degrees when all specified requirements and coursework have been satisfied.
7. The right to dispute academic evaluation under the Grade Appeal Procedure if the student believes that the evaluation standards and grading criteria contained in the course syllabus were not followed by the instructor or was imposed in an arbitrary or capricious manner.

WITHDRAWALS

Students may withdraw from a course or withdraw from the College. Following are criteria for each.

Withdrawal from a Course. Students who wish to withdraw from a course must obtain a "Course Withdrawal Form" from the Office of the Registrar. The student is responsible for **circulating** the form for appropriate signatures. Once the form is completed, the student must return the form to the Office of the Registrar, to complete the withdrawal process. A final grade of "W" is an indication that the student has officially withdrawn from the course. Please note that ceasing to attend class does not constitute a withdrawal from the course. Students who do not complete the proper withdrawal procedures will receive a grade of "F" for the course.

Withdrawal from the College. Students who wish to withdraw from the College, must obtain the "Withdrawal from College" form from the Office of the Registrar. The student is responsible for

circulating the form for appropriate signatures and returning the form to the Office of the Registrar. Properly following this procedure will result in a grade of “W” for each class. Students failing to withdraw from the College will receive the grade earned for the course(s). Note that there is no opportunity to appeal the grade of “W.”

Administrative Withdrawal from the College. The College reserves the right to administratively withdraw students who are in violation of the College’s policy or are affected by extenuating circumstances. Administratively withdrawn students will receive grades of “W” for all enrolled classes.

Unofficial Withdrawal Policy. An unofficial withdrawal takes place when a student has discontinued attendance for unknown reasons and failed to inform the College. When this occurs, the College makes a determination of the student’s last date of enrollment by consulting with the student’s faculty of his/her last date of class attendance. If the last date of attendance cannot be determined, the College will use the 60 percent point of the semester as a determination of the last date of attendance. The grade of *FX* is assigned for all classes for the semester.

Intellectual Property Policy. The objective of this policy is to encourage the production of copyrightable materials (“Works”) that advance Texas College’s academic, scholarly, and service-oriented mission and that contribute to the professional stature of those involved in the creation of the Works.

The policy governs the respective ownership rights of the College and all of its employees, both academic and non-academic in copyrightable material produced within the scope of employment or otherwise arising out of the participation of individuals, including students, in the activities of the College. While the College will not assert its ownership interest in scholarly and academic Works created by members of the faculty/staff who use generally available College resources, the College does assert ownership of copyrightable Work where significant College resources are utilized in the creation of the Work or in other circumstances as required pursuant to an agreement with a third party or where the Work is a work made for hire. (Generally available resources include one’s office, office computer, telephone (excluding long-distance charges), and library resources.

As a general rule, the author of a Work is the owner of the copyright. It is the general policy of the College that Works that are created on an individual’s own independent initiative outside the time, place, and scope of employment or activity within the College are owned by the author.

Conversely, under the work made for hire doctrine of the Copyright Act, the author, and therefore the owner, of the copyright in Works created by persons within the scope of their employment is the employer rather than the individual creator. Therefore, unless modified by this Policy or by the specific terms of a written agreement signed by the faculty member or other employee or covered individual and the President (or his or her designee), as a matter of law, Works created by College faculty members in the course of their teaching and research and by other personnel in the course of their employment (including students working in conjunction with faculty), are the property of the College.

However, since a fundamental principle of the College as organization of higher education is to encourage the development and widest possible dissemination of scholarly work produced by members of the College Community, and consistent with longstanding academic tradition, except as described below, the College cedes copyright ownership to the faculty member who writes or develops a scholarly or academic tangible or virtual Work (including books, papers, lecture notes, articles, and similar materials) where such Work is created by a faculty member either using his or her own resources or using College resources that are generally available to the College faculty.

Texas College does not cede ownership in the following situation:

- (1) The College retains ownership of the copyright to works created: (a) by faculty members as part of an assigned project or task, where the assignment explicitly states that the work will be owned by the College; (b) by staff members in any work they perform for the College; and (c) by student employees in the course of any assigned duties other than research tasks performed in support of a project directed by a faculty member that does not fall within any other exception.
- (2) Ownership of the copyright to works commissioned or developed by a faculty member or other employee pursuant to an agreement that the College has with an entity outside of the College will be governed by the terms of such agreement. If the agreement does not specify ownership by the outside entity, ownership shall vest in the College. All such agreements must be approved in writing by the President (or his or her designee).
- (3) Unless the parties agree in writing to the contrary, the College shall own the copyright in a work of the College: (a) will make or has made a significant investment in the development of the work through the provision of substantiate' financial, personnel, technology, facilities, or other resources beyond that which is generally provided faculty in the ordinary course of instruction and research; or (b) enters into a written agreement with the developer(s) that makes provision for copyright ownership.

GRADING

Course Examinations. Regular examinations are generally held for all courses at mid-semester and at the close of each semester. Credit will be granted for a course only after the student has taken all regular examinations for that course.

Grade Reports. Students are notified by the Office of the Registrar of their mid-semester grade performance electronically through the JICS portal. Final semester grade reports are also electronically posted through the JICS portal at the end of each semester, including the summer term. Grade reports are made available to all students who are in good financial standing with the College. In keeping with FERPA, grades are not sent to parents unless there is written authorization from the student to do so.

Grading Policy. The final semester grades are determined by the instructor based on the grades earned by the student for all completed course work. Grades are reported officially by the instructors to the Office of the Registrar at mid-semester and at the end of the course according to the following grading system:

A – 90-100
B – 80-89
C – 70-79
D – 60-69
F – Below 60
I – Incomplete
NC – No Credit
W – Withdrawal
FX – Unofficial Withdrawal

A - indicates outstanding performance combined with intellectual alertness and initiative;

B - indicates above average work that is performed in a sustained and creative manner according to all requirements of the course;

C - represents the minimum accepted performance for course work in the major or minor area;

D - represents work in the lowest passing quality through which a student can fulfill the minimum requirements of a course. It is considered to be borderline;

F - indicates that the student has failed. If the course is required, the student must repeat the course for a passing grade. If a student earns an “F” in a course that extends over two semesters, he or she may not continue in the same or higher subject area until the first course is taken again and passed;

I – is assigned when circumstances beyond the control of the student make it impossible for the student to complete all work of the course. It is the student’s responsibility to conference with the instructor to ensure that the grade of “I” is changed when the work is completed. The student has one (1) semester following the incomplete being issued to complete course work;;

NC - is assigned as the grade for the student who has not fulfilled requirements of a developmental education (or remedial) course which he/she has attended regularly

W – indicates that the student has officially withdrawn from the course. If the course is required, the student must complete the course at a later date in order to receive credit. The “W” indication is administratively assigned by the Registrar.

FX – indicates that a student has not officially withdrawn from the college, nor completed satisfactory coursework for a letter grade. The FX indication is administratively assigned by the Registrar.

Incomplete Grades. An Incomplete (I) grade is granted to students who are experiencing extenuating circumstances; however, the student must be passing the course. The student has one (1) semester following the Incomplete being issued to complete course work. Students who do not return the subsequent semester are obligated to complete the assignment(s) for the “Incomplete” by the deadline date. Students who do not complete course work within the statute of limitation will receive a grade of “F” for the course. Once the grade of “F” has been recorded, it cannot be changed.

Grade Appeal. If a student wishes to appeal a grade after the initial grade has been reported, the following steps should be followed:

- (1) The initial appeal for posted grades begins with a discussion between the instructor and the student. If a grade change is granted, the instructor must complete a Change of Grade Form;
- (2) The completed form is submitted to the respective Division Chair for review and approval consideration. If approved, the division chairperson moves the form forward;
- (3) The form approved by the division chairperson is submitted to the Vice President of Academic Affairs for review and approval consideration. The Vice President will forward the approval to the Registrar for the grade change to take place. This is the final step in the appeals process.

The Change of Grade form will rest in the Office of the Registrar after all necessary approvals are completed.

Statute of Limitation. Texas College has a statute of limitation that grants a student six (6) years to complete an academic degree plan. Students who fail to complete the statute of limitations per the criteria are obligated to the new program of study and policies in place at that time.

Satisfactory Academic Progress. Review of academic progress is conducted by the Office of Academic Affairs at the end of each semester. Students in academic jeopardy receive notice of their standing, if they are not progressing academically. To maintain Satisfactory Academic Progress (SAP), students must comply with the hours earned and cumulative grade point average in keeping with the SAP scale that follows.

SAP Scale

Hours Earned	CGPA
1-15	1.50
16 -30	1.70
31-45	1.90
46 and above	2.00

Academic Probation. A student whose cumulative grade point average falls below the standard (as established by the SAP Scale above) will be placed on academic probation during the next semester the student is enrolled. The probation status must be removed within two semesters. During the probationary period, students are expected to earn a cumulative minimum grade point average of 2.00 (C) or better. Students on academic probation are required to register with the Student Learning Center for tutoring and reinforcement of study skills. A student who leaves the College on academic probation will be re-admitted on academic probation; even if the student has attended another institution between leaving and re-entering Texas College. Probation status will be removed when the student has achieved the required cumulative grade point average of 2.00 or better, following one semester of probation.

Academic Suspension and Dismissal. A student on academic probation after two consecutive semesters will be placed on academic suspension for one semester. When placed on academic suspension a student must reapply; readmission is not automatic. Once readmitted to the College, the student will have two semesters to bring the cumulative grade point average up to the standard (as established by the SAP Scale).

A student may appeal academic suspension and dismissal by writing to the Vice President of Academic Affairs and documenting circumstances for failure to meet satisfactory academic progress requirements. The Vice President of Academic Affairs may present the student's case to the Academic Affairs Appeals Committee which will forward a recommendation to the Vice President of Academic Affairs. The Vice President of Academic Affairs will in turn inform the student of the final decision.

Academic Integrity. Texas College believes that strength of character is as important as academic achievement; therefore, the College expects everyone in the academic community to maintain personal integrity in academic matters and not to contribute or condone the dishonesty of others. Scholastic dishonesty (which includes any form of plagiarism, cheating, falsification of records, and collusion with others to defraud) is improper and will not be tolerated. Texas College reserves the right to apply disciplinary actions to a student who has committed scholastic dishonesty.

Student Information Sharing. The College interacts and informs students of pertinent information through the institutions JICS portal. It is through this process that grades, fees, financial aid, course information and other related items are provided.

Student Records. Texas College protects the rights of all student records and subscribes to the Family Educational Rights and Privacy Act (FERPA) of 1974. In this regard, there is a non-disclosure of educational records for all students unless authorized by the student. The College reserves the right for staff to review records for administrative purposes and decision making. Academic records for all students are securely housed in the Office of the Registrar in fire proof files.

Requirements for Graduation. Texas College offers the Associate of Arts and Baccalaureate Degrees. Candidates for a degree must:

1. Satisfy all general education, institutional and program requirements for the major and/or minor in keeping with the approved Degree Plan associated with the College's academic programs; earn a grade of "C" or better in all courses required in the major and minor subjects; and where applicable, pass departmental comprehensive and/or exit examinations and required projects.
2. Candidates for the Baccalaureate degrees are required to complete the last 30 hours in residency at Texas College to be awarded a degree from the College, with a minimum grade point average of 2.00; a minimum requirement of 2.75 for the Educator Preparation Program.

Texas College confers the academic degree once per academic year. This is generally done at the College's Commencement in May. Only those students who have completed all degree requirements may participate in the graduation exercise. The transcript reflects the official date of degree completion and is a part of the student's permanent record.

Graduation Information. The student must complete an application for graduation during the prescribed period noted by the Academic Calendar. Upon completion of the final degree audit by the Registrar, the student will be informed of his/her graduation status. A graduation fee is required and must be paid prior to graduation. This is a one-time nonrefundable fee charged to each person applying for a degree regardless of whether they participate in the graduation ceremonies or not.

Students completing all coursework may be eligible to participate in the commencement ceremony in May. Prospective degree candidates cannot participate in the graduation ceremony with coursework and graduation requirement deficiencies. The official date of graduation is placed on the diploma and the student's permanent record.

Note: Appearance of a candidate's name in the commencement program does not ensure that he/she has met all requirements for graduation.

Graduating with Honors. In order to graduate with Honors, students must have:

- Completed the degree program for which they have continuous enrollment earning up to 60 credit hours at Texas College.
- Met the institutional requirements by having completed the degree requirements within six years of enrolling in the College.
- Earned a minimum cumulative grade point average of 3.30 at Texas College with no grades less than a "C" for all completed coursework and no developmental work included in the computation of the average.

The cumulative grade standard for Honors is as follows:

3.80-4.00	Summa Cum Laude
3.60-3.79	Magna Cum Laude

Class Attendance. The student is responsible for attending all lectures, seminars, laboratories, and field work for each registered class. A student will be permitted one unexcused absence per credit hour of the course by the instructor in which he/she is enrolled. Any student whose unexcused absences exceed the number permitted by the instructor may be vulnerable to failing the course. The administration endorses student participation in activities and exercises that represent the college to the external publics. However, students are still responsible for the successful completion of coursework. Following are examples of excused absences and acceptable documentation considered by administration.

EXCUSED ABSENCES AND ACCEPTABLE DOCUMENTATION

Reason	Documentation
Personal illness or illness of immediate family member	Physician's statement
Death in immediate family	Funeral program
Patriotic duty (military or jury duty; court appearance, etc.)	Copy of notice or summons
Performance of co- or extra-curricular obligations to the College (travel with athletic teams, class field trips, conferences, seminars, fine arts performance, etc.)	Written statement from sponsor or notice from either the Office of Academic Affairs or Student Affairs

College Assembly Attendance. All students are required to attend all College Assembly; this is an institutional requirement for graduation. Failure to show diligence in meeting the requirement may result in denial of approval for graduation. Students who attend the minimum required hours for College Assembly will receive one-half (.5) credit per semester.

First and Second Year Seminars. Entering freshmen and transfer students are required to complete the First- and Second-Year Seminars. The First- and Second-Year Seminars are institutional requirements for graduation.

Course Prerequisites. Some courses require prerequisites to assure appropriate foundation. Prerequisites are stated in the course description. Students are encouraged to meet all prerequisites before enrolling in a particular course.

Course Exemptions/Substitution. Any substitution or exemption must be recommended by the appropriate division chairperson and approved by the Vice President of Academic Affairs. Requests for course exemptions/substitutions are not automatically approved.

Declaration of Majors and Minors. The College offers 12 majors at the Baccalaureate level and two majors at the Associate of Arts level. Students first declare a major during the application process and are guided to advisors accordingly. Students may change the major at any time by

completing a *Change of Major* form that may be obtained from the Office of the Registrar. If a student changes his/her major, the student must adhere to the current Degree Plan in effect at the time of the change.

A minor is required in select disciplines. Students should discuss selection of a minor with the faculty advisor for their major field. A grade of “C” or better is required in the major/minor courses to fulfill degree requirements for graduation.

Double Major. Students who have completed all academic requirements for one area of specialization may submit an application to pursue a second major in another subject area. The student will be required to complete the requirements in the second field of concentration in order to qualify for a double major.

Concurrent Enrollment. Students who request concurrent enrollment at another college or university must obtain written permission from their academic advisor expressing the extenuating circumstance for the request. The advisor’s request is subsequently forwarded to the Vice President of Academic Affairs as a recommendation for approval consideration. The Vice President will inform the student in writing of the decision.

Cancelled Classes. The College reserves the right to cancel any class that does not have a sufficient number of students enrolled to warrant its continuation. If students attempt to add another class, they should do so during the scheduled drop and add period listed on the Academic Calendar.

Repetition of a Course. A course in which a grade of “D” or “F” was earned must be repeated if the course is needed to satisfy degree requirements in the major and/or minor. When a course is repeated, the original grade remains on the student’s permanent transcript. A course will be counted only once in meeting the semester hours required for majors, minors, or graduation. If a course is repeated, the highest grade recorded is considered the official grade in the course and will be the only grade used in computation of grade point averages.

Credit by CLEP. Texas College may grant credit to students for successful completion of College Level Examination Program (CLEP) Tests in the general education courses only. It is recommended that students visit the CLEP website at www.clep.com for information about registration for the CLEP tests.

CLEP examinations will not affect a student’s grade point average and may not be awarded for courses in which a student has received a “D” or “F” grade. Students must seek permission from the Vice President of Academic Affairs to take an examination for credit in the semester in which the requirements for graduation are to be completed. A fee is charged to record CLEP credits. Students who are interested in receiving course credit should check with the Office of the Registrar to obtain a list of subjects in which credit by examination is permitted.

Grade Point Calculations. The records of all students are measured both qualitatively and quantitatively at the end of the academic year, including the summer term. Official designation of a student’s academic standing is made according to the official degree audit and is certified by

the registrar. Grade point calculations are based on a 4.00 scale. Non-punitive grades, including incompletes (I's) and no credit (NC), and (FX) are not counted in the computation of the cumulative grade point average.

Change of Student's Personal Information. If a change occurs in a student's name, telephone number, permanent mailing address, or local address, prompt notification must be given by the student to the Office of the Registrar. The student is responsible for all communications mailed to the address of record given to the College.

Veteran's Benefits. A veteran is a person who has served or is serving in the armed forces. Veterans and their dependents may receive benefits only for courses that are necessary for graduation. Veterans and/or dependents:

- May not audit a course or repeat a course in which they have previously earned a satisfactory grade and receive Veterans' Administration benefit payments on such credit hours;
- Who transfer from another college must have their official transcripts sent to Texas College as soon as possible for evaluation. Failure to do this subjects them to loss of benefits in accordance with Section 1775 of Title 38 of the U.S. Code; and
- Must inform the Office of the Registrar promptly of any changes in their name, address, number of dependents or any other changes in their enrollment status that would affect their Veterans' Administration benefits or curriculum.

Scope of Catalog. A student is obligated to the catalog in effect at the time in which they enter the College. The College reserves the right to amend policies, rules, procedures with notification to the students. The statute of limitation provides the student six years to complete the program of study without interruption, i.e. no breaks in study, under the catalog in effect at the time of the student's entry.

ACADEMIC HONORS

Academic Honors is the acknowledgement of students who perform at the criteria established for Presidential Scholars; Dean's List; Honor Roll Scholars; and Freshman Honors Scholars. The computation of grade point averages in assessing student eligibility for academic honors is based upon regular collegiate courses only; no developmental courses will be computed in the GPA.

Presidential Scholars. Full-time students who maintain a grade point average of 3.80 - 4.00 for two (2) consecutive semesters with no grades less than a "C" while enrolled in at least 12 semester hours of regular course work.

Dean's List. Full-time students who maintain high scholastic averages with a grade point average of 3.50 to 3.79 in regular course work for two (2) consecutive semesters with no grades less than a "C."

Honor Roll. Full-time students enrolled in at least 12 semester hours of regular course work, who have achieved a semester grade point average of 3.00 or greater.

Freshman Honors Scholars. Full-time students who obtain a 3.00 GPA after the first semester of their freshman year.

ACADEMIC PROGRAMS

The academic programs of Texas College are a result of the program review process that has established four areas as the essential direction of institutional outcomes for student learning. They include:

1. Having students gain a command of the use of communicative skills; both written and verbal;
2. Teaching students to become critical thinkers in the use of content knowledge and beyond;
3. Having students involved in service projects and social responsibilities that assist in skill development; and
4. Providing student with the knowledge and experiential learning that will lead them in becoming productive citizens, i.e. individuals who can assist with the development of others where they live and work.

The total educational program at Texas College is arranged to permit flexibility in the selection of courses by the individual in any curriculum. Moreover, considerable attention is given to the acquisition of a common base of general knowledge in the liberal arts, upon which a program of specialization might be built. To this end, a common core of general education courses must be completed satisfactorily by all students regardless of degree plans.

Major Divisions. Four academic divisions comprise the Texas College educational program:

Division of Business and Social Sciences

Division of Education

Division of General Studies and Humanities

Division of Natural and Computational Sciences

Baccalaureate Degree Programs. Texas College students may pursue either a Bachelor of Arts (B.A.) degree or a Bachelor of Science (B.S.) degree in the following areas:

Biology

Business Administration

Computer Science

Criminal Justice

English

Interdisciplinary Studies

Liberal Studies

Mathematics

Music
Religion

(Educator Preparation Program)

Social Work
Sociology

Select majors have the option to pursue a minor field of study. The minor represents a concentrated offering of a minimum of 18 hours in one of the fields of studies listed below. Courses for the minor are not duplicative, i.e. they cannot be used for the General Core nor the major content offering; all minor offerings must be at the 3000-4000 course levels. Minor field of studies include:

Biology	Mathematics
Business Administration	Religion
Computer Science	Social Work
Criminal Justice	Sociology
English	

Associate Degree Programs. Texas College students may pursue an Associate of Arts in Early Childhood Education and Associate of Arts in General Studies. The completion of the Associate offering in Early Childhood Education does not constitute automatic admission into the Interdisciplinary Studies (Educator Preparation Program) at the Baccalaureate level.

Teacher Certification Programs. Individuals who desire to teach may obtain teacher certification in the areas of academic specialization presented below:

Educator Preparation Programs

Undergraduate and Post Baccalaureate Offerings

Certification level	Disciplines
Early Childhood - grade 6	Generalist
Grades 4-8	English, Language Arts, Reading and Life Science, and Mathematics
Early Childhood - grade 12	Physical Education
Grades 7-12	English, Language Arts, and Reading Life Science, and Mathematics

GENERAL EDUCATION COURSES AND INSTITUTIONAL REQUIREMENTS

- All students aspiring to become candidates for the Bachelor of Arts or Bachelor of Science degree must complete a maximum of 44 semester hours of general education courses and 15 hours of institutional requirements. The underlying objectives of these courses are to: Provide students with a background of essential information and experiences from which they can acquire knowledge needed to succeed in meeting demands of society;

- Provide an opportunity for students to acquire knowledge in various subject matter fields that address students' interests and inclinations;
- Afford channels through which students must perform required critical and creative thinking to assimilate the knowledge gained;
- Offer learning experiences which will evaluate the level of students' abilities to engage in independent inquiry;
- Assist students in developing a value process that will enable them to become socially conscious; and
- Create within students the desire to emulate those who have achieved scholarly eminence.

GENERAL EDUCATION COURSES

AREA, COURSE CODE AND NUMBER	COURSE NAME	CREDIT HOURS
COSC 1330	Computer Literacy	3
MATH 1314	College Algebra	3
ARTS 1301 or MUSI 1301 or THTR 1301	Art Appreciation or Introduction to Music or Introduction to Theater	3
RELI 1311	Survey of the Bible	3
HLTH 2281	Essential Elements of Health	2
PHED	Any Activity (1) hour Course	1
ENGL 1301	English Composition I	3
ENGL 1302	English Composition II	3
ENGL 2302	World Literature to 1660	3
BIOL 1471	General Biology I	4
PHYS 1405	Introduction to Physical Science	4
HIST 1301	History of the U.S. to 1865	3
HIST 1302	History of the U.S. since 1865	3
SOCI 1301	Introduction to Sociology	3
GOVT 2305	U.S. National Government	3
Total		44
INSTITUTIONAL REQUIREMENTS		
ASEM 1100	College Assembly	4
SOCI 1100	First Year Seminar	1
SOCI 2100	Second Year Seminar	1

SPAN 1302	Elementary Spanish II	3

SPCH 1301	Fundamental of Speech	3
Total		15
Total		59

DEVELOPMENTAL AND ACADEMIC SUPPORT

Texas College is committed to helping students develop the skills needed to optimize the probability of success academically and socially. In support of this aspect of the mission, the College provides developmental courses and learning support services to assist students in being successful as they matriculate through their higher education experience.

Developmental Program. The primary role of the developmental courses is to prepare students to enroll in the college-level courses offered after placement testing (pre-testing) in the basic academic skills of grammar, writing, study-reading, and basic mathematics/pre-algebra. The preparation provided enables students to begin college-level courses with greater confidence and ability to comprehend and integrate subject matter at a more advanced level than experienced at the high school level.

Developmental Courses. Developmental courses are structured classes aimed at providing basic skills assistance in writing, reading, and mathematics. Students enrolled in Development Education Courses will not receive credit hours toward graduation for completion of these classes. Enrollment in the courses presented below is required based on results of placement exams:

DEVELOPMENTAL COURSES

Course code and number	Course name	Credit Hours
MATH 0201	Math I	2
MATH 0202	Math II	2
READ 0201	Reading I	2
READ 0202	Reading II	2
WRIT 0201	Writing I	2
WRIT 0202	Writing II	2

Admission to and transfer from the developmental education courses. All new students and transfer students (with less than 12 hours) who have not complete the general education core may be tested prior to registration to determine their eligibility for enrolling in college-level courses (a process called “placement testing.” Credits for developmental courses from other institutions are not accepted for transfer in lieu of completing the developmental courses at Texas College.

Once students have passed the course(s) and the exit exam(s) of the respective course, they are then permitted to enroll in college-level courses.

DEVELOPMENTAL COURSE DESCRIPTIONS

MATH 0201 – Math I (2 credit hours). The course is designed to provide the necessary mathematical skills in preparation for college mathematics. An in-depth study of units on basic general mathematical concepts and their applications to real life problems, integers, introductory algebra, and problem solving is included in all topical areas. Class meets daily and includes computer-based assignments.

MATH 0202 – Math II (2 credit hours). This course includes properties of real numbers, fundamental operations, solving equations and systems of equations, sets, exponents and radicals, the coordinate systems, and graphing. Class meets daily and includes computer-based assignment.

READ 0201 – Reading I (2 credit hours). This course has been designed to strengthen and prepare students to understand more effectively and master the content of the College level courses. The class includes computer-based assignments.

READ 0202 – Reading II (2 credit hours). This course includes vocabulary building, comprehension skills, interpretation, evaluation, critical thinking skills, and study skills. Class includes computer-based assignments.

WRIT 0201 – Writing I (2 credit hours). This course is designed to give a review of basic English grammar. Included in this course are sentence building, paragraph developments, and computer-based assignments.

WRIT 0202 – Writing II (2 credit hours). A study of writing with emphasis on sentence structure, paragraph development, and essay writing skills. Class includes computer-based assignments.

Academic Support. The Student Learning Center (SLC) provides academic assistance for the student body. The SLC is located on the first floor of the D. R. Glass Library. The following services are offered and students are strongly encouraged to take advantage of these services:

- The SLC Tutorial Team provides an invaluable service to all Texas College students. Tutoring services, in virtually every subject offered at TC, are provided to assist students with sharpening their academic skills. Tutoring is done by students and faculty.
- The Early-Alert System monitors students' progress by flagging poor attendance and low grades. This approach to sustainability confronts potential dropouts with an encounter of hope and attempts to redirect them to the path of academic success.
- The First-Second-Year Seminar (F/SYS) courses prepare entering students not only to cope with the rigors of their college experience, but also to thrive and be successful in their college career. The F/SYS accomplishes this by engaging in student assessment, teaching success strategies, and exposing them to College policies, procedures, and services.
- Academic Advising of first- and second- year students comprises another crucial component of the SLC. Each first-and second-year student is assigned a first- and second year advisor. Research shows that good advising may be the single most underestimated exercise in higher education.

DIVISION OF BUSINESS AND SOCIAL SCIENCES

The Division of Business and Social Sciences consist of Business Administration, Criminal Justice, Social Work, and Sociology. To earn the bachelor's degree, students must complete the required hours in the general education core the institutional course requirements, and the content (major program) area requirements.

The Division of Business and Social Sciences prepares students in the respective majors by offering a compilation of courses that provide an understanding of the content and the foundational principles of the subject matter. Each major is mission driven in that they ensure a balanced intellectual preparation that assist students with being prepared as productive citizens in their chosen fields of study.

All students aspiring to become candidates for a major in the Division of Business and Social Sciences must complete a maximum of 44 semester hours of general education courses and 15 hours of institutional requirements. The prerequisite courses and requirements are listed.

GENERAL EDUCATION COURSES

AREA, COURSE CODE AND NUMBER	COURSE NAME	CREDIT HOURS
COSC 1330	Computer Literacy	3
MATH 1314	College Algebra	3
ARTS 1301 or MUSI 1301 or THTR 1301	Art Appreciation or Introduction to Music or Introduction to Theater	3

BUSINESS ADMINISTRATION

The major of Business Administration provides an understanding of how to manage a business so that it remains stable for the opportunity of growth. Students are introduced to decision making techniques along with strategies for understanding of and preparing for business operations. The compilation of courses in business have content that include management, accounting, marketing, finance, business law and economics; all assist with the foundational understanding of the major. Following is the Degree Plan for the major in Business Administration.

BUSINESS ADMINISTRATION COURSE DESCRIPTIONS

GBUS 2301 – Introduction to Business (3 credit hours). This course presents a general overview covering the economic foundations of business and the capitalistic system. Emphasis will be placed on the functional areas of management, human resources, management information systems, international business, marketing, production/operations management, financial management, and accounting.

GBUS 2302 – Principles of Management (3 credit hours). This course introduces students to the principles of human and organizational behavior. Topics covered include management and leadership theories, management functions, organizational structure, human resources, management information systems, production and the control function, organizational communication, business ethics and social responsibilities, and other related subjects. Prerequisite: GBUS 2301.

GBUS 2303 – Principles of Accounting I (3 credit hours). This course offers a study of the fundamental principles of accounting as they apply to the modern business practices including concepts of debit and credit, general journals and ledgers, sales, purchases, inventory, and other topics.

GBUS 2304 – Principles of Accounting II (3 credit hours). A continuation of GBUS 2303. This course will continue discussion of basic terminology, concepts, and procedures of accounting. Emphasis will be placed on accounting for partnerships and corporations. Other topics include cash flow statements, financial statement analysis, managerial accounting concepts, cost accounting, budgeting, and introduction to personal income taxation. Laboratory problems and practice sets will be used to apply theory presented in daily lectures.

GBUS 3312 – International Business (3 credit hours). A study of management processes and practices in multinational business organizations, overseas markets, and economic interdependence. Prerequisite: GBUS 2301.

GBUS 3314 – Business Communications (3 credit hours). This course emphasizes communication theory, principles of business communication, message development, business-like research, report writing, and delivery/presentation of business information, and international business communication.

GBUS 3315 – Principles of Marketing (3 credit hours). A general course dealing with functions, commodities, and agents involved in marketing of goods and services.

GBUS 3316 – Human Resource Management (3 credit hours). This course introduces human resources management roles within the context of the total organizational function and discusses the traditional human resources management functions of recruitment, training, labor relations, human resources planning, and compensation/benefits management. It includes a study of some of the contemporary issues of ethics, drugs, and AIDS in the work place, sexual harassment, and international labor mobility in the dynamic and changing world of business. Prerequisites: GBUS 2301 and GBUS 2302.

GBUS 3317 – Principles of Finance (3 credit hours). An examination of the principles of financing capital and securities for business organizations. Prerequisites: GBUS 2304

GBUS 3318 – Organizational Theory and Behavior (3 credit hours). Introduces students to the theories of individual/human behavior in organizations. Topics include: values, attitudes, personality, perception, motivation, group dynamics, communications, organizational structure, leadership, control, power, politics, organizational culture, change and development. Cases, lectures and experiential exercises will be used. Prerequisites: GBUS 2302.

GBUS 3320 – Organizational Ethics (3 credit hours). The examination of ethical theories and their application to business and managerial decision-making in the organizational environment; social responsibility, ethical dilemmas and their impact on decisions affecting different stakeholders. Sources of moral values, moral development and coping skills to deal with ethical

conflicts between personal and organizational values. Prerequisites: GBUS 2301 and GBUS 2302.

GBUS 3322 – Money and Banking (3 credit hours). A study of the fundamental theories of money, banking, and investment. Topics include: economic role of the banking system and financial institutions, Federal Reserve System and monetary policy, and instruments of international finance.

GBUS 4310 – Entrepreneurship (3 credit hours). Concepts and practices underlying small business entrepreneurship covering the role, pitfalls, potentials and growing importance of small business. Students will be exposed to concepts dealing with the development of entrepreneurial skills and behavior; they will also be required to identify a business of their preference, and prepare a comprehensive business plan. Case analysis and lectures will be used. Prerequisites: 3 hours of Economics and GBUS 2303 or by permission of the instructor.

GBUS 4311 – Business Law (3 credit hours). A comprehensive presentation of law as a discipline, especially as it applies to business. It also emphasizes the societal or public law that forms the general background for individual business transactions.

GBUS 4313 – Leading in Organizations (3 credit hours). Introduces students to leadership concepts with emphasis on strategic leadership and development. Key leadership skills will be explored, including communication and conflict resolution, business/professional ethics and social responsibility, team building, and change management. Lectures, case studies and experiential learning/simulation exercises will be used to emphasize management development skills.

GBUS 4314 – Strategic Management (3 credit hours). Enterprise management integrating the functional areas of business problems and applying the principles to complex problems at the executive level are presented. The case method is used extensively. Prerequisite: Completion of current enrollment in all 3000 level business core courses.

GBUS 4316 – Labor Management Relations (3 credit hours). Overview of labor law, rights of employers and unions in organizing and bargaining, grievance process, arbitration, negotiation, and conflict management strategies and tactics in the dynamic business environment.

GBUS 4322 – Production Operations Management (3 credit hours). The integration of the managerial functions of planning, organizing, directing, and controlling the processes of resource conversion into goods and services. Topics include: forecasting, planning, facilities location and layout, job design, inventory control, and quality control. Prerequisites: GBUS 2302.

GBUS 4323 – Business Internship (3 credit hours). The student will receive supervised experience in performing duties in an actual business environment with emphasis on observing the management decision making process involved in the conversion of resources into the sales of goods and/or services. Prerequisite: Junior/Senior standing or consent of instructor.

GBUS 4324 – Special Topics in Business (3 credit hours). A course to be utilized for seminars and special lectures in topics not offered in the catalog. Topics may include any area in the field of economic study. This course may be taken more than one time when the topics are different. Prerequisites: junior or senior standing and consent of instructor.

CRIMINAL JUSTICE

The curriculum for Criminal Justice is designed to provide students with an understanding of the criminal justice system, its agencies, personnel, and historical foundation. The program offers a broad blend of courses intended to prepare students for both academic and professional success with the framework of a strong liberal arts education. A fundamental element of the criminal justice program is experiential learning; students must complete an internship with a social science related agency. The liberal arts focus of the program prepares students for graduate school in criminal justice and for careers at the local, state, and federal levels in law enforcement, corrections, and court-related agencies. Following is the Degree Plan for the major in Criminal Justice.

CRIMINAL JUSTICE COURSE DESCRIPTIONS

CRJU 1301 – Introduction to the Criminal Justice System (3 credit hours). Familiarizes students with the facets of the criminal justice system, the sub-systems, processing offenders, punishment alternatives, and the future of criminal justice systems.

CRJU 1313 – Juvenile Delinquency and Treatment Approaches (3 credit hours). This is a historical overview and theories and methodologies of juvenile crime. It examines and analyzes organizations and models of delinquency prevention, treatment, and control programs, including evaluation of legal, family, and public policies.

CRJU 2393 – Fundamentals of Criminal Law (3 credit hours). A course in the definition of law, definition of crime, general principles of criminal responsibility, elements of punishment , conditions and circumstances which may excuse from criminal responsibility, the legal and court system of Texas and the United States, basic concepts of law.

CRJU 2394 – Criminal Evidence and Court Procedure (3 credit hours). This is continued study of procedural rules affecting the collection of physical evidence, rules of search and seizure, chain of custody, admissibility of evidence. Use of notes, nature of proof as it applies to analysis of interpretation of physical evidence. Students will analyze a sample and present direct testimony with cross-examination.

CRJU 2395 – Criminal Justice Research (3 credit hours). This is a survey course on the methods/procedures of conducting social science research. Empirical methods utilized in sociology, psychology, and economics are reviewed. Sampling techniques and various approaches to hypothesis testing are emphasized.

CRJU 3391 – Methods in Criminal Justice and Criminal Procedure (3 credit hours). Review of investigation, pretrial procedure, trial procedure and sentencing, post-trial and sentencing, post-trial motions, appeals, reviews and differences in methods among states as well as local justice systems.

CRJU 3392 – Ethics in Criminal Justice (3 credit hours). Examination and analysis of conduct, professionalism, and ethics in the criminal justice system. The course exposes students to moral dilemmas and ethical dimensions, constitutional ethics, codes and standards of conduct, corruption, brutality and methods of dealing with practices in criminal justice system. Examined alternative and consequences of types of professional conduct.

CRJU 3393 – Minorities, Crime, Police, and Social Policies (3 credit hours). Identifies American minorities and their rejection or acceptance in mainstream American society, suburbanization and reservation, and types of crime and policing in various communities.

CRJU 3394 – American Correctional Systems (3 credit hours). An examination of traditional and contemporary issues, changes, theories, and practices of American juvenile and adult correction systems. Social, political, economic, and organizational factors affecting American correctional policies and practices.

CRJU 3395 – Criminalistics (3 credit hours). Techniques and methods of the application of science to law include: processing and investigating crime scenes, evidence preservation, typing and examining physical evidence. Analysis of evidence glass and soil, organic and inorganic compounds, hair, fibers and paint, drugs, toxicology, arson and explosives, serology, DNA, fingerprints, firearms, voice and handwriting.

CRJU 3397 – Treatment, Testing, and Evaluation in Corrections (3 credit hours). Treatment and the tests and measures used in the implementation are reviewed. Details of the different approach used in the correctional process, including testing instruments utilized in the treatment process. Emphasis is placed on the theoretical basis for treatment programs in correction, the importance of test and measurements in program design and evaluations.

CRJU 4341 – Internship in Criminal Justice (3 credit hours). Field placement to integrate students in practical work experience and on- the- job training in a one of a variety of local, national, or international agencies in law enforcement, corrections, court/legal services, social/support services. Junior or seniors CAN gain practical experiences by working in criminal justice agencies. Successful completion of this course requires (1) a final report that demonstrates students' ability to research and write a properly formatted report that adheres to technical and agency requirements; and (2) supervisory evaluation of the student by the agency. Students must find their own agencies.

CRJU 4391 – The Abnormal and Crime (3 credit hours - Spring semester). Examines cross cultural perceptions, treatment, control and standards of abnormal people, behavior and deviancy and how these contributed to contemporary criminal behavior, including insanity, psychotics, killers, stalkers, threat, sex offenders, violence, terrorists, and criminal profiles.

CRJU 4393 – Law Enforcement and the Legal Process (3 credit hours - Fall semester). Basic principles and their applications to law enforcement. Relationship of theoretical administrative problems and legal issues concerning the processing of evidence, police authority, constitutional restraints and responsibilities, law of arrest, search and seizure, police liability, and ethnic profiling.

CRJU 4394 – Organization and Administration in Criminal Justice (3 credit hours - Spring semester). Organization and theory of correction systems, institutional operations, management, alternatives to institutionalization, treatment and rehabilitation, statutes and administrative guidelines of probation and parole, legal issues affecting corrections, rights of the convicted, and civil liability of correctional agencies and staff.

CRJU 4396 – Law Enforcement, Intelligence Operations, and Criminal Investigation (3 credit hours - Fall semester). This course focuses on Law enforcement intelligence as an analytic tool for case development, criminal investigation, resource allocation, interviewing, interrogation, use of forensic science and trial preparation. Historical, ethical, legal and operational issues affecting current practice. It studies investigative theory, the collection and preservation of evidence, and sources of information.

CRJU 4397 – American Crime (3 credit hours - Spring semester). Characteristics of crime: conceptual distinction, historical basis, characteristics, causes, theories, consequences, and types of crime, including organized, white collar, international crimes of aggression, collective violence, and terrorism. Societal response to crime: Federal statutes, publicity, exile, occupational debarment, capital punishment, and incarceration.

SOCIAL WORK

The program prepares graduates for general application of knowledge in entry level social work practices as well as continuing professional development. The degree is designed to prepare students with basic knowledge of theory and the ability to engage in thought with theoretical difficulty. Students should have the ability to work with individuals, families, groups, organizations, and communities in a variety of agency settings. Following is the Degree Plan for the major in Social Work.

SOCIAL WORK COURSE DESCRIPTIONS

SOCW 2361 – Introduction to Social Welfare (3 credit hours - Fall semester). Gives an historical and a contemporary focus to social welfare services and practices. Introduction to representative fields, practices, services, and professional groups engaged in social welfare with particular emphasis on social work and required field experience.

SOCW 2362 – Field of Social Work (3 credit hours - Spring semester). Focuses on the profession of social work, the role and function of social work, the role and function of social workers, and settings for social work practice.

SOCW 3301 – Violence and Abuse in Families (3 credit hours). This will focus on selected aspects of violence and abuse, their patterns (wife, child), types (physical, emotional, sexual), theories of causation, and social service programs.

SOCW 3303 – Social Welfare Legislation (3 credit hours - Fall semester). Intensive examination and discussion of selected social legislation. Emphasis on Social Security and other acts closely related to social welfare service and social work. Prerequisite: SOCW 2361 AND/OR Concurrent with SOCW 4304.

SOCW 3305 – Human Behavior and the Social Environment I (3 credit hours - Fall semester). Study of the developmental stages of the life cycle with emphasis on tasks and mastery outcomes of each stage. Biological, social, psychological, and cultural systems are examined in regard to human behavior, and interrelationships between persons and environments are emphasized.

SOCW 3306 – Human Behavior and the Social Environment II (3 credit hours - Spring semester). Study of the dynamic interaction of persons and their environments and assessment of social functioning in regard to the interrelationship of persons and environments. Emphasis on the concepts of crisis, coping, adaptation, and the development of problems in social functioning.

SOCW 4302 – Services to Children and Youth in Institutional Settings (3 credit hours - Alternate semesters). This course examines selected representative services for children and youth in terms

of their programs, method of service delivery, and the needs of clientele being served. The primary focus is on service settings other than the home.

SOCW 4304 – Issues in Social Legislation and Policy (3 credit hours - Spring semester). Exploration and assessment of legislation/policy issues with references to social work and/or concurrent with SOCW 3303.

SOCW 4306 – Ethics and Values in the Helping Professions (3 credit hours - Fall/Spring)
A comprehensive study of the standards in the field of helping professionals, with emphasis on principles, values, ethical issues in decision-making processes, issues special to managed care systems, and an integrative approach to common ethical dilemmas in a variety of settings. In addition, some major issues facing the practitioner as an individual, in marital and family therapy, in group work, in community agencies, and in private practice are examined. The course emphasizes that ethical decision making is an ongoing process with no easy answers. Course participation will equip students with knowledge and understanding they need to effectively think through issues.

SOCW 4331 – Seminar in Helping (3 credit hours - Spring semester). Examination and discussion of motive, value orientation, and approaches used in helping. Particular emphasis on interviewing, observation, data management, and integration as key tools in the helping process.

SOCW 4332 – Methods in Social Work Research (Equivalent to SOCI4331 Quantitative Social Research. 3 credit hours). Emphasis placed on the basic techniques and procedures employed in sociological research. Includes design of research problems, data collection techniques and sampling, analysis of data, techniques of scaling and index construction, contingency table analysis, measures of association and report writing.

SOCW 4401 – Field Instruction I (4 credit hours - Fall semester). Field practicum (16 hours per week) in a social agency; organized class one day per week; 208 clock hours in field.
Prerequisites: SOCW 2361, 2362, 33926, 33942, AND 4302.

SOCW 4422 – Field Instruction II (3 credit hours - Spring). Continuation of Field Instruction I. Field practicum (16 hours per week in a social agency); organized class one day per week; 208 clock hours in field. Prerequisites: SOCW 3303, 3305, 4401 and 4331.

SOCIOLOGY

The major in Sociology is designed to prepare students for various occupations within the public or private sectors. The preparation in Sociology provides a foundation for careers in academia, sociology related professions, government, business, or community agencies. The blend of courses allows students to explore and analyze issues vital to everyday living, communities, the nation, and the world. Sociology studies demography, crime and deviance, family and gender, political, economic and historical sociology, cultural sociology, urban sociology, migration, and race and ethnicity. The preparation in Sociology is also designed to prepare students for graduate work either in the behavioral and social sciences or in professional areas such as ministry and social work. Following is the Degree Plan for the major in Social Work.

SOCIOLOGY COURSE DESCRIPTIONS

SOCI 1100 – First Year Seminar (College orientation course) (1 credit hour). Informs students about the history, organizational structure and current policies of the College. Prepares students for the transition to college level studies and the demands of academic preparation. Provides self-management skills, career discussion and proven strategies for successful learning. Required of all freshman and transfer students without orientation credits.

SOCI 2100 – Second Year Seminar (College orientation course) (1 credit hour). Informs students about the history, organizational structure and current policies of the College. Prepares students for the transition to college level studies and the demands of academic preparation. Provides self-management skills, career discussion and proven strategies for successful learning. Required of all freshman and transfer students without orientation credits.

SOCI 1301 – Introduction to Sociology (3 credit hours). This course is designed to provide students with a working knowledge of the basic concepts, principles, and major areas of sociology. Special emphasis is placed on elements of sociological analysis as a basis of research in specialized areas of social life and culture.

SOCI 2301 – Social Problems (3 credit hours - Fall semester). An inquiry into some of the major social problems in contemporary society: racial and ethnic, deviance, war, and so forth. Special emphasis is placed on origin, development, and suggested solutions.

SOCI 3301 – Social Psychology (3 credit hours - Spring semester). Eclectic presentation of major concepts and hypotheses: perception, cognition, motivation, socialization, and self-alienation. Emphasis is also placed on mass phenomena, leadership, and problems and processes of social interaction. Contemporary theoretical positions are surveyed.

SOCI 3302 – Social Institutions (3 credit hours). The systematic study of the nature, development, structure, and function of social institutions and their interrelationships. Emphasis is placed on analysis of the five basic institutions: family, education, religion, government, and economics.

SOCI 3303 – Sociological Theory II (3 credit hours - Spring semester). This course studies the historical development of sociological thought with special emphasis on the work of the major theoreticians. (Prerequisites: SOCI 1301, SOCI 4303).

SOCI 3309 – Marriage and the Family (3 credit hours - Fall semester). A study of the family as the primary social institution and its status in contemporary social structure. Types of family organization, disorganization, husband-wife and parent-child relationships, and the impact of social change on family structure and function are discussed. Emphasis is placed on factors contributing to marital harmony. (Prerequisite: SOCI 1301).

SOCI 3331 – Corrections (3 credit hours). An intensive overview of prison subcultures, community corrections, the historical development of the American penal system and theories of punishment. Rehabilitation, restitution, and restoration will be explored in the context of prison cultures and treatment. (Prerequisites: CRJU 2396, SOCI 1301).

SOCI 3332 – Probation and Parole (3 credit hours). Procedures used in the supervision of probationers and parolees. Preparation of social history, pre-hearing and pre-sentencing investigation reports. (Prerequisites: CRJU 2396, SOCI 1301).

SOCI 3339 – Race & Ethnicity (Formerly Sociology of Minorities) (3 credit hours). Examines theoretical, historical, and comparative perspectives on minority groups, race and ethnic relations through processes of colonialism, slavery, and immigration along with political, social, and

economic conflicts that often result in genocidal wars, racism, discrimination, segregation, modernization and the institutionalization of racism. (Prerequisite: SOCI 1301).

SOCI 4301 – Legal Anthropology (3 credit hrs.) The study of laws, law enforcement, crime and punishment from cross-cultural and global perspectives. Careful attention will be paid to the anthropological analysis of the role of law in society, its social construction, its selective enforcement and its impact on social change. (Prerequisite: SOCI 1301).

SOCI 4302 – Cultural Anthropology (3 credit hours - Fall semester). Studies of cultural relativity, cultural universals, and continuity and cultural changes are presented. Area studies are presented.

SOCI 4303 – Substance Abuse (3 credit hours - Formerly Drugs and Society). Designed to analyze varied substance abuse, i.e., drugs and alcohol, both legal and illegal. Social and psychological effects and treatment programs will be examined. (Prerequisites: SOCI 1301).

SOCI 4304 – Social Gerontology (3 credit hours - alternate spring semesters). Studies social implications of an aging population; social adjustments to the aging process; personal adjustments to roles and status of later age; consideration of retirement; and public assistance programs for older people. (Prerequisite: SOCI 1301).

SOCI4305 – Collective Behavior . (3 credit hours - Alternate fall semesters). A systematic analysis of various types of behavior in crowds, disaster, mobs, hysteria, fads and fashions, panics, and social movements. (Prerequisite: SOCI 1301).

SOCI 4306 – Criminology (3 credit hours). Studies of one branch of deviant behavior. Considers the nature and extent of crime, theories of criminal behavior and control of crime. Special emphasis on the causes of black-on-black crime. (Prerequisites: SOCI 1301, CRJU 2396)

SOCI 4307 – Deviant Behavior (3 credit hours). Study of forms of behavior that deviate from societal norms. Organized crime, sexual additions, gambling, victims and victimless crimes will be covered. (Prerequisite: SOCI 1301).

SOCI 4308 – Inequality: Class, Race, & Gender (3 credit hour - Formerly Social Stratification). An analysis and comparison of class and caste in different societies with particular reference to American society. Theories concerning the origins, persistence, and consequences of stratification are examined.

SOCI 4331 – Quantitative Social Research {*Formerly Introduction to Social Research*} (3 credit hours - Alternate spring semesters). Emphasis is placed on the basic techniques and procedures employed in sociological research. Designed to do research problems, data collection techniques and sampling, analysis of data, techniques of scaling and index construction, contingency table analysis, measures of association, and report writing. (Prerequisites: SOCI 1301).

SOCI 4332 – Seminar/Method in Social Research (3 credit hours - Spring semester). The study of special problems in sociology. May be repeated if topic changes. A student may receive credit in his/her field of major concentration. (Prerequisite: SOCI 1301).

SOCI 4333 – Individual Community Research and Internship (3 credit hours - Fall semester). Field/Research Internship that integrates students in practical work experience and on-the-job training in agencies in law enforcement, corrections, social/support services, and court agencies. Students must find and have the agency approved the semester before taking this course. Successful completion of this course requires (1) a final report that demonstrates student's ability to research and write a report that adheres to agency requirement and those of the discipline; and (2) supervisory evaluation of the student by the agency and professor. (Prerequisites: SOCI 1301, CRJU 2396, junior or senior standing, and 20 credit hours of Criminal Justice classes passed with a minimum grade of "C").

SOCI 4334 – Community Research and Internship in Sociology (3 credit hours). Field Research and Internship combine with practical work experience in agencies in law enforcement, corrections, social service, or courts. Students must find and have agencies approved one semester before taking this course. Successful completion of this course requires (1) a final report that demonstrates students' abilities to research and write a report that adheres to agency requirements and those of the discipline; and (2) supervisory evaluations by the agency and professor. (Prerequisites: SOCI 1301, junior or senior standing and 20 credit hours of Sociology classes passed with a minimum grade of "C").

****Other General Education Courses Offered by the Division***

*GOVT 2305 – United States National Government (3 credit hours - Fall semester). Examines the fundamental principles of the American constitutional system of government. Some key topics to be studied include major institutions of the United States Government, the American political party system, American political ideas and ideologies, civil rights and civil liberties, public opinion interest groups, and taxation and spending policies.

*GOVT 2306 – State and Local Government (3 credit hours - Spring semester). This course deals with the nature and operation of state and local governments within the context of the American Federalist system of government. The Texas Constitution and its governmental institutions and processes are the focal point of the course. Fulfills requirements for teacher certification.

DIVISION OF EDUCATION

The Division of Education prepares students to become highly qualified classroom teachers serving diverse educational communities. Students have the opportunity to become involved in two teacher education organizations on campus: the campus chapter of the Association of Childhood Education International (ACEI) and the Pi Lambda Theta Honor Society for those students who qualify. Throughout the academic year, teacher candidates are able to meet and learn from superintendents, principals, and renowned public and private school teachers. Texas College offers the Bachelor of Science degree, the Associate in Arts degree, and the post-

baccalaureate program. To earn the associate's or bachelor's degree, students must complete the required hours in the general education core, the institutional course requirements, and the content (major program) area requirements.

Bachelor of Science Degree. The Division of Education offers the major Interdisciplinary Studies Educator Preparation Program (EPP) leading to teacher certification in the following areas: Early Childhood through grade 6 (EC-6); grades 4 through 8; grades 8-12; and Early Childhood through grade 12 (EC-12).

Certification Areas. Early Childhood-Grade 6 (EC-6) Generalist: English, Language Arts, and Reading; or Mathematics Grades 4-8: English, Language Arts, and Reading; or Life Science Grades 8-12: English, Language Arts, and Reading; Life Science; Mathematics; EC-12 All-level: Physical Education

Associate of Arts Degree. The College offers the associate in arts degree in Early Childhood Education.

Admission to the Educator Preparation Program. Although admitted to the college, there is an additional admission requirement to the Educator Preparation Program as students must:

- Take and pass the Texas Higher Education Assessment (THEA) with a minimum score of (READING 230); (WRITING 220); and (MATH 230), or the COMPASS Test with comparable score to the THEA.
- Attend required Orientation to the Texas College Educator Preparation Program.
- Have a minimum of 59 credit hours and a cumulative GPA of 2.75 or higher.
- Complete a program application for admission to the Texas College Educator Preparation Program, which may be obtained from the Division of Education.

The following information must be submitted along with the program admission application, or be completed prior to program entry.

- Three signed letters of reference from college professors/work study supervisors;
- Interview with Educator Preparation Program Admission Committee;
- Submission of an official college transcript; and
- Completion and submission of 1) a signed degree plan; 2) an autobiography; 3) criminal background check; and 4) copy of state identification.

In the Division of Education, students have the option of pursuing the Associates of Arts degree/ Early Childhood Education, or the Bachelor of Science degree in one of the Educator Preparation Program Fields. Following is the Degree Plan for the Associate of Arts – Early Childhood Education.

POST-BACCALAUREATE CERTIFICATION PROGRAM

The main objective of the post-baccalaureate certification program is to allow persons with a bachelor’s degree the opportunity to complete course requirements for teacher certification in the state of Texas. The post-baccalaureate teacher certification fields are:

- Early Childhood – Grade 6 Generalist: Early Childhood and Elementary
- Grades 4-8 or 7-12 (middle or high school): English, Language Arts, and Reading
- Grades 4-8 or 7-12 (middle or high school): Mathematics
- Grades 4-8 or 7-12 (middle or high school): Science and Life Science

EDUCATION COURSE DESCRIPTIONS

EDUC 2301 – Foundations of the Teaching Profession (3 credit hours). Designed to provide students seeking admission into the teacher education program with an overview of the expectations, duties, and responsibilities of a professional educator. It highlights the process of becoming an educator in Texas and exposes students to current issues in education at the state and national levels. In addition, students learn about the structure of the state educational system, as well as, legal and ethical implications of teaching as a profession. Students begin and continue to develop their teaching philosophy which culminates into their portfolios by the time of program completion. A minimum of five hours of observation and journal entry will be required for successful completion in this course. (Prerequisite: SOCI 1100 First-Year Seminar).

EDUC 2302 – Understanding Diversity in Education (3 credit hours). Explores the key dimensions of P-12 classroom diversity and the consistency with which the students define their cultures and the cultures of others. Prospective teachers will be challenged to rethink and apply their conceptualization of diversity in P-12 classroom settings through observation and reflection. (Prerequisites: SOCI1200First-Year Seminar; EDUC 2301 Foundations of the Teaching Profession).

EDUC 2321 – Introduction to Early Childhood Education (3 credit hours - Spring semester). This course will present an overview of the aims, objectives, and values of early childhood education and the factors that impact it. The student will explore program patterns, teaching roles, learning environments, current issues, and recent developments.

EDUC 2323 – Human Growth and Development (3 credit hours - Spring semester). In this course, students learn the basic concepts of human development and behavior—mental, physical, social, and emotional—from birth to death.

EDUC 2600 – Internship (6 hours - Spring semester). The student will gain practical experiences in public schools, private schools, and/or other agencies that provide educational services for young children. This is for students seeking the Associate in Arts degree.

EDUC 3311 – Learning Theory and Measurement (3 credit hours - Fall semester). This course examines the major teaching and learning theories and the use and interpretation of tests. It incorporates the impact of socio-cultural, ethnic, language, and gender differences on learner achievement.

EDUC 3321 – Developing Language Skills of Young Children (3 credit hours - Spring semester). The student will study the strategies for the development of communication skills of young children emphasizing oral language and literacy.

EDUC 3323 – Educational Technology and Media (3 credit hours - Spring semester). This course emphasizes the acquisition of knowledge, skills, and competencies necessary for the development, application, and integration of media and other emerging technologies into teaching and learning.

EDUC 3324 – Essential Elements of Science and Mathematics for Elementary Teachers (3 credit hours - Spring semester). A broad study of the concepts of physical, biological, and earth sciences along with applications of basic numbers, number problems, word problems, interpreting data, and other skills necessary to become competent in the elementary classroom.

EDUC 3363 SOCIAL STUDIES FOR TEACHERS, GRADES K- 8 (3 hrs.) Designed specifically for teachers of young and middle school children, this course focuses on planning, organizing, and effectively delivering instruction based upon the Social Studies Texas Essential Knowledge and Skills (TEKS). Social studies content areas emphasized are history, geography, economics, government, citizenship, and culture. Discussions include the social and environmental consequences of scientific discovery and technological innovations.

EDUC 4101 – Seminar (1 credit hour). The Seminar provides a forum for reflective discussions, deliberations, and activities designed to enhance the teaching/learning processes to increase instructional proficiency of teacher candidates during student teaching.

EDUC 4303 – Capstone for the Teaching Profession I (3 credit hours). This course offers summative experiences of the teacher education program, including content area, pedagogy, and professional responsibilities. It prepares teacher candidates for the Texas Examinations of Educator Standards (TExES) certification test.

EDUC 4304 – Capstone for the Teaching Profession II (3 credit hours). This course is offered to students requiring additional preparation for the Texas Examinations of Educator Standards (TExES) certification test. See description under Capstone I.

EDUC 4313 – Classroom Management (3 credit hours). This course covers basic skills and knowledge for creating a learning environment that encourages positive social interaction and effective communication among members of the learning community. The course emphasizes ethics, attitudes, language patterns, values, and behaviors, and includes methods and strategies for consulting with other school professionals and parents. This course requires 5 hours in clinical observation.

EDUC 4322 – Curriculum and Instruction (3 credit hours). This course is designed to provide students with the foundational strategies for instructional planning, methodologies of teaching and learning, evaluation techniques, motivation, classroom management, technology integration, and preparation and evaluation of materials. Ten (10) hours in clinical observation is required. Students seeking certification at the EC-12 level must do a minimum of 6 weeks of clinical practice in the Elementary School and a minimum of 6 weeks of clinical practice in the Secondary School.

EDUC 4601 – Clinical Teaching in Elementary School (6 credit hours). Student teaching is a minimum of 14 weeks of clinical experience. During the student teaching experience, the prospective teacher candidate demonstrates his/her competence as an effective beginning teacher. Each student teacher is expected to possess, or develop, the knowledge, skills, and dispositions needed to manage successfully a classroom teaching---learning situation.

EDUC 4602 – Clinical Teaching in Secondary School (6 credit hours). Student teaching is a minimum of 14 weeks of clinical experience. During the student teaching experience, the prospective teacher candidate demonstrates his/her competence as an effective beginning teacher. Each student teacher is expected to possess, or develop, the knowledge, skills, and dispositions needed to manage successfully a classroom teaching---learning situation.

PHED 2318 – Foundations and Principles of Physical Education (3 credit hours - Fall semester). Provides an introduction and orientation for the student wishing to major in physical education. An overview of the historical and philosophical heritage of physical education is presented. Current issues and trends are discussed.

PHED 2329 - Dance (3 credit hours - Spring semester). Theory and practice in modern and ballroom dancing including knowledge of the history, rhythm analysis, movement, and creative work in basic steps and variations.

PHED 3313 – Physical Education in the Secondary School (3 credit hours - Fall semester). Principles, methods, and procedures of curriculum construction for secondary school youth are emphasized. Emphasis is also placed on principles of motor learning, materials for students of varying abilities and needs, patterns of curriculum development, appropriate tests and evaluative devices, and observation and practicum in school settings.

PHED 3316 – Physiology of Exercise *{Formerly Fundamentals of Body Mechanics}* (3 credit hours - Fall semester). Emphasizes the role that exercise can play in the development of a healthy life-style. Exercise physiology is designed to help the teacher, coach, or the exercise

specialist with a basis for making sound life-style recommendations and detecting programs that have a legitimate scientific base.

PHED 3317 – Psychology of Coaching (3 credit hours - Fall semester). Principles that undergird all aspects of coaching are presented. These include material drawn from psychology, sociology, and applied kinesiology and physiology.

PHED 3318 – Intramurals (3 credit hours - Fall semester). Stresses problems peculiar to organizing and implementing intramural programs; problems of motivation and desirable activities; and the making of schedules, tournaments, reports, and awards.

PHED 3322 – Physical Education in the Elementary School (3 credit hours - Spring semester). Methods and techniques for teaching various skills (games, gymnastics, relays, etc.) are presented. The growth and developmental needs of children are discussed in the context of their influence on activity selection and curriculum development.

PHED 3324 – Movement Education (3 credit hours - Spring semester). A focus on the analysis of concepts and methodologies used to promote the development of movement competencies. Sample programs to demonstrate mastery of the concepts used in program development are discussed and put together.

PHED 3325 – Kinesiology (3 credit hours - Spring semester). Emphasis is placed on acquiring a working knowledge of the mechanical principles that affect human motion. Investigates tools and procedures detailing how these principles influence performance in sports and games. Prerequisites: see advisor.

PHED 4311 – Tests and Measurements in Physical Education (3 credit hours - Fall semester). Emphasizes tests utilized in the area of physical education. Methods and techniques of testing, recording, selecting, and utilizing statistical procedures, analysis, and interpretation of statistical data are included.

PHED 4322 – Principles of Adapted Physical Education (3 credit hours - Spring semester). The focus is on understanding how the body functions in health and in ill-health. Methods of analysis and evaluation of posture, fitness, and some common handicapping conditions are presented. Prerequisites: see advisor.

PHED 4329 – Administration of Physical Education and Athletics (3 credit hours - Spring semester). A study of the organization and administrative processes involved in managing an effective and ongoing physical education and athletics program.

READING COURSE DESCRIPTIONS

READ 2322 – Individualized and Recreational Reading of Children’s Literature (3 credit hours - Spring semester). Concepts, practices, and strategies of individualized and recreational reading of literature and other books are explored.

READ 3312 – Fundamentals of Reading Instruction (3 credit hours - Fall semester). A study of the reading process, approaches, and strategies for teaching developmental reading within the context of sequential skills.

READ 3321 – Language Arts Across the Curriculum (3 credit hours).

This course prepares the pre K-12th grade teacher with understandings of the spiraling objectives in the Language Arts TEKS and how these skills and concepts can be interwoven to reinforce instruction and learning in all subject areas. Emphasis is placed on strategies to nurture research explorations, creative expression and critical thinking through writing, reading, speaking, and listening experiences.

READ 4314 – Reading in the Content Areas (3 credit hours - Fall semester). Emphasizes strategies for teaching reading and study skills in subject matter areas. Focus is on strategies for diagnostic and remedial reading.

***GENERAL EDUCATION COURSES OFFERED BY THE DIVISION**

*PHED 1111 – Jogging and Physical Conditioning (1 credit hour - Fall semester). Emphasis is placed on learning the essentials of jogging and physical conditioning. The proper techniques and mechanics essential to enhanced performance are discussed. Instruction is given also in safety and preventive procedures.

*PHED 1122 – Tennis (1 credit hour - Spring semester). Advanced techniques and fundamentals are emphasized in bowling, tennis, and golf. Opportunities are provided for individual competition. Coaching techniques, officiating, and rules and regulations are included.

*PHED 2105 – Basketball and Softball (1 credit hour - Fall semester). Skills essential to good individual and team play are emphasized. Basic mechanical principles governing good performance in the individual skills are also discussed.

*PHED 2113 – Volleyball and Badminton (1 credit hour - Fall semester). Emphasis is placed on learning basic skills, mechanics of specific skills, and court craft in volleyball and badminton. Opportunities are provided for competitive play.

*PHED 2124 – Track and Field Events (1 hour credit - Spring semester). Emphasis is placed on general training and conditioning for track and field. An overview of track and field events is presented. Each student is required to select one track and one field event and demonstrate proficiency in each.

*PHED 3181 – Individual and Dual Sports (1 credit hour - Spring semester). Course emphasis is placed upon those sports activities requiring a team of one-on-one or two-on-two. Activities include badminton, tennis, golf, and table tennis.

DIVISION OF GENERAL STUDIES AND HUMANITIES

The Division of General Studies and Humanities consists of General Studies, English, Liberal Studies, Music and Religion. In keeping with the liberal arts philosophy the Division provides

preparation that addresses the social, intellectual, and creative heritage of humankind as indispensable to the development of the total person and the competent worker. The Division offers the Associate of Arts degree with a major in General Studies and the Baccalaureate degrees in majors of English, Liberal Studies, Music, and Religion. Following is the Associate of Arts degree offered by the Division.

GENERAL STUDIES

The Associate Degree in General Studies provides students an opportunity to pursue a broad general education. It is intended as a flexible program for the student who is not preparing for a specific major. This degree recognizes mastery in the liberal and fine arts and is intended for transfer to equivalent bachelor of arts programs at four-year schools. The General Studies program provides the first two years of many four-year college or university majors. A challenging core of requirements from the humanities, social sciences, natural sciences, and mathematics.

After completing Associates of Arts in General Studies, the student will be able to transfer into the third year of a four-year college or university. The following is the course of study for the general studies program as well as the course descriptions.

ASSOCIATE OF ARTS GENERAL STUDIES DEGREE PLAN

AREA, COURSE CODE AND NUMBER	COURSE NAME	CREDIT HOURS

DEPARTMENT OF ENGLISH

The Department of English prepares students for the Bachelor of Arts in English degree. The Department assist student’s development with skills that lead to English majors being successful with entry into graduate school and other professions that are highly valued such as education, business, law, public relations, and ministry.

For students seeking careers in teaching, the Department offers English courses that support teacher certification programs, including English Language Arts and Reading, 4-8, and English Language Arts and Reading, 7-12. Students interested in teaching should contact the Division of Education.

Exit criteria for the Bachelor of Arts in English degree include the minimum grade requirement of “C” in all courses counting toward the major. Students must also complete the English exit exam; this departmental exam is used for diagnostic purposes only. The Degree Plan for the Bachelor of Arts in English appears below.

BACHELOR OF ARTS IN ENGLISH DEGREE PLAN

The Minor in English. The minor requires 18 semester hours in English other than those courses taken to complete the general education requirements; six of the 18 semester hours must be upper-level classification. The minimum grade requirement of “C” is required in all courses counting toward the minor.

ENGLISH COURSE DESCRIPTIONS

*ENGL 1301 – English Composition I (3 credit hours - both semesters). Study of and practice in writing standard English; emphasis on the collegiate-level essay and argumentative writing; development of critical thinking skills; selected readings. Prerequisite: Developmental study or satisfactory score on SAT or equivalent placement test.

*ENGL 1302 – English Composition II (3 credit hours - both semester). A continuation of ENGL 1301. Study and practice in writing the collegiate-level essay with emphasis on argumentative writing, reading critically, and analyzing fiction, poetry, and drama. Prerequisite: ENGL 1301.

*ENGL 2302 – World Literature (3 credit hours - either semester). A study of masterpieces of world literature with emphasis on the works of major authors such as Homer, Sophocles, Augustine, Dante, Cervantes, Moliere, Tolstoy, Kafka, and Achebe. Prerequisite: ENGL 1302.

ENGL 2315 – American Literature to 1865 (3 credit hours - Fall semester). A survey of representative works by major American writers to 1865; attention is given to the dominant ideas of each literary period. Prerequisite: ENGL 1302.

ENGL 2326 – American Literature Since 1865 (3 credit hours - Spring semester). A survey of representative works by major American writers since 1865; attention is given to the dominant ideas of each literary period. Prerequisite: ENGL 1302.

ENGL 3303 – Literary Analysis (3 credit hours - Either semester). Study and practice in research, critical analysis, and literary writing along with an introduction to critical theory. English majors are encouraged to take this course during their sophomore year. Prerequisite: Nine credit hours of English.

ENGL 3307 – Advanced Composition (3 credit hours - Either semester). Advanced study and practice in the principles and theory of expository writing; study of contemporary works; collaborative work. Prerequisite: Nine credit hours of English.

ENGL 3308 – Creative Writing (3 credit hours - Either semester). Study and practice in writing fiction, poetry, and drama; the development of language awareness; analyzing contemporary works; and collaborative work. Prerequisite: Nine credit hours of English.

ENGL 3309 – British Masterpieces (3 credit hours - Either semester). A study of the masterpieces of the British canon. Works or authors include *Beowulf*, Chaucer, Shakespeare, Swift, Wordsworth, Tennyson, and Yeats. Prerequisite: ENGL 3303 or instructor's consent.

ENGL 3313 – Modern English Grammar (3 credit hours - Fall semester). Concentration on basic terminology, rules, and current use in English grammar and composition. Prerequisite: Nine credit hours of English.

ENGL 4304 – Classical Literature (3 credit hours - Spring semester). An intensive study of selected masterpieces of classical Greek and Roman literature in translation. Prerequisite: ENGL 3303 or instructor's consent.

ENGL 4306 – Studies in British Literature (3 credit hours - Either semester). A detailed study of British literature such as a literary genre, an author's representative work, or a literary period. Prerequisite: ENGL 3303 or instructor's consent.

ENGL 4307 – Studies in African-American Literature (3 credit hours - Either semester). An examination of authors, themes, or movements in African-American literature. ENGL 3303 or instructor's consent.

ENGL 4309 – Shakespeare (3 credit hours - Either semester). A study of selected tragedies, histories, comedies, and poetry of William Shakespeare. Prerequisite: ENGL 3303 or instructor's consent.

ENGL 4322 – Introduction to Linguistics (3 credit hours - Spring semester). A study of language acquisition, phonetics, phonology, morphology, syntax, semantics, and other subjects in relation to prescriptive and descriptive systems of grammar. Prerequisite: ENGL 3313.

LIBERAL STUDIES

The area of Liberal Studies provides an opportunity for students to explore major social, cultural, economic, environmental, and political issues through the lenses of scientific inquiry, ethical consciousness, historical contexts, and aesthetic awareness. The Liberal Studies major is for students who wish to pursue careers that utilize a broad liberal arts background, including government, public relations, journalism, criminal justice, small business management, non-profit service, and marketing. The Liberal Studies program is an interdisciplinary concentration comprised of complementary fields of study from the four divisions of the college. Students choose three focus areas from the 12 majors offered by the college, establishing a total of 66 hours of required/elective course hours for the major. The following is the course of study for the Liberal Studies program as well as the course descriptions.

LIBERAL STUDIES DEGREE PLAN

AREA, COURSE CODE AND NUMBER	COURSE NAME	CREDIT HOURS
General Core Requirements		44
Institutional Requirements		15
Primary Area of Concentration	3000 and 4000 Levels	21
Secondary Area of Concentration		18
Third Area of Concentration		18
Electives (Free)	3000 and 4000 Levels	9
Total		125

MUSIC PROGRAM

The Music Program offers intensive preparation that will assist students for entry into graduate programs and/or the world of professional music. The major has a strong liberal arts foundation that assist students with skill developments needed for the 21st century. The Music program requires students to take a compilation of specific music and non-music classes designed to provide balanced intellectual preparations in keeping with the mission of the college.

MUSIC COURSE DESCRIPTIONS

Applied Music - Instrumentation

AMUI 1105/1106 - Applied Instrument (1 credit hour). A study of the basic techniques of wind and percussion instrument performance with emphasis on scale studies, flexibility exercises, etudes, technique studies, and appropriate solo literature; special attention is given to breath control, tone production, and rudiments. One (1) fifty-minute lesson and at least six (6) practice hours per week. Prerequisite: successful audition.

MUI 2105/2106 - Applied Instrument (1 credit hour). A continued study of the basic techniques started in AMUI 1105/1106. The degree of advanced study is dependent on the individual. One (1) fifty-minute lesson and at least six (6) practice hours per week. Prerequisite: AMUI 1106.

AMUI 3105/3106 - Applied Instrument (1 credit hour). Emphasis is on the development of musicianship through a more complete understanding of style and interpretation. Two (2) fifty-minute lessons and at least six (6) practice hours per week. The student must prepare and present a cumulative junior recital, the program to be approved by the supervising instructor in conjunction with the other members of the music faculty. Prerequisite: AMUI 2106.

AMUI 4105/4106 - Applied Instrument (1 credit hour). A continuation of the prerequisite course with an intensive overview of the major solo literature for the instrument. Two (2) fifty-minute lessons and at least six (6) practice hours per week. The student must prepare and present a cumulative senior recital, the program to be approved by the supervising instructor in conjunction with the other members of the music faculty. Prerequisite: AMUI 3106.

Applied Music - Piano

AMUP 1101/1102 - Applied Piano (1 credit hour). Practice in the major and minor scales, chords, and arpeggios. The repertoire comprises selected Bach two-part inventions as well as representative compositions of Haydn, Czerny, Mendelssohn, Schubert, Schuman, Chopin, Heller, Bartok. One (1) fifty-minute lesson and at least six (6) practice hours per week. Prerequisite: successful audition.

AMUP 2101/2102 - Applied Piano (1 credit hour). Emphasis is on continued scale techniques and keyboard exercises. Study of Bach's "Well-Tempered Clavier" and Haydn's sonatas with a continuation of Chopin. An introduction to the works of Beethoven, Mozart, and modern composers. One (1) fifty-minute lesson and at least six (6) practice hours per week. Prerequisite: AMUP 1102.

AMUP 3101/3102 - Applied Piano (1 credit hour). Continued study of Bach, Beethoven, and Chopin with additional selections from Brahms, Clementi, Liszt, Debussy, and Ravel. Two (2) fifty-minute lessons and at least six (6) practice hours per week. The program is to be approved by the supervising instructor and other members of the music faculty.

AMUP 4101/4102 - Applied Piano (1 credit hour). The repertoire is expanded to include more advanced works from Bach's "Well-Tempered Clavier," Beethoven's sonatas, Chopin's ballads and etudes; polonaises and scherzi; Liszt's rhapsodies and etudes; and significant modern compositions. Two (2) fifty-minute lessons and at least ten (10) practice hours per week. The student must prepare and present a cumulative senior recital. The program is to be approved by the supervising instructor and other members of the music faculty. Prerequisite: AMUP 3102.

Applied Music - Voice

AMUV 1103/1104 - Applied Voice (1 credit hour). The study of the fundamentals of vocal techniques including breath control, resonance, and diction. Attention is directed to building a basic repertoire for the beginning voice student. One (1) fifty-minute lesson and at least six (6) practice hours per week. Prerequisite: audition.

AMUV 2103/2104 - Applied Voice (1 credit hour). A continued study of vocal technique in addition to compositions in the English technique and in the English language; art songs, recitatives, and arias in limited languages. One (1) fifty-minute lesson and at least six (6) practice hours per week. Prerequisite: AMUV 1104.

AMUV 3103/3104 - Applied Voice (1 credit hour). Intensive study of advanced vocal technique. The repertoire comprises more technically demanding French, German, Italian, and American art songs, as well as, recitatives and arias from both oratorio and opera. Two (2) fifty-minute lessons and at least six (6) practice hours per week. The student must prepare and present a cumulative junior recital in conjunction with the supervising instructor and other members of the music faculty. Prerequisite: AMUV 2104.

AMUV 4103/4104 - Applied Voice (1 credit hour - either semester). Emphasis is on interpretation which is stylistically and artistically appropriate for the major periods of vocal literature. Two (2) fifty-minute lessons and at least ten (10) practice hours per week. The student must prepare and present a cumulative senior recital in conjunction with the supervising instructor and other members of the music faculty.

Prerequisite: AMUV 3104.

Music Ensemble

MUSB 1101, 1102, 2101, 2102, 3101, 3102, 4101, 4102 – Band (1 credit hour - either semester, 1 hr.) Performing instrumental ensemble; open to all students who qualify for concert, marching, and jazz activities. Five laboratory hours per week.

MUSC 1101, 1102, 2101, 2102, 3101, 3102, 4101, 4102 – Concert Choir (1 credit hour - either semester). Performing vocal ensemble; open to all students who qualify for the concert and gospel choirs. Five laboratory hours per week.

MUSE 1101, 1102, 2101, 2102, 3101, 3102, 4101, 4102 – Small Ensemble (1 credit hour - instrumental vocal, either semester). Performing instrumental or vocal ensemble; open to a select group through audition only.

MUSIC

MUSI 1101 – Basic Theory (1 credit hour). For music majors and minors who fail to meet the required level of proficiency for MUSI 23320. Includes a study of the rudiments of music theory, sight singing, ear-training, and dictation.

MUSI 1102 – Voice Class (1 credit hour). Designed for students with no previous study. Offers instruction in fundamentals of singing. Limited repertoire of sacred and secular songs.

MUSI 1103 – String Class (1 credit hour). Fundamentals of teaching and playing string instruments, evaluation of methods and materials.

MUSI 1111 – Class Piano I (1 credit hour - Fall semester). Introduction to piano literature, chord structure progression, improvisation, and sight-reading techniques. Music majors only.

MUSI 1121 – Music Literature (1 credit hour - Spring semester). Analytical study of musical styles and various media from the Renaissance through contemporary composers; special emphasis on listening. Music majors only.

*MUSI 1301 – Introduction to Music (3 credit hours). A non-technical course for the general college student designed to lead to a basic understanding and increased enjoyment of the world's music. Taught in a multi-media format with lecture and guided listening sessions supplemented by live performance and recital series.

MUSI 2115 – Woodwind Class (1 credit hour - Fall semester). Basic principles of playing and teaching woodwind instruments, performance of exercises and pieces, and ensemble playing.

MUSI 2124 – Class Piano II (1 credit hour - Spring semester). Continuation of keyboard skills in Piano I. Prerequisite: MUSI 1111, music majors only.

MUSI 2126 – Brass and Percussion Class (1 credit hour - Spring semester). Basic principles of playing and teaching the brass/wind instruments including trumpet, trombone, French horn, tuba, and percussion instruments; performance of exercises and pieces; ensemble playing

MUSI 2312 – Elementary Harmony & Sightsinging I (3 credit hours - Fall semester). Integrated course including the study of the staff, clefs, key signatures, scales, notation, meter, rhythm, sight singing, ear-training, and keyboard study. Part writing of figured bass involving the use of principle triad and non-harmonic tones. Prerequisite: successful completion of proficiency examination.

MUSI 2322 – Afro-American Music (3 credit hours - Fall semester). Emphasizes Afro-American music which spans from Africa to Colonial America to the present. Presents American forms of music showing the influences of African idioms including blues, jazz, gospel, rock and roll, and art music.

MUSI 2323 – Elementary Harmony & Sightsinging II (3 credit hours - Spring semester). Integrated course including four-part harmonization involving the use of secondary triads, dominant seventh chords, secondary dominant chords, elementary modulations, sightsinging, ear-training, keyboard study, and harmonic analysis. Prerequisite: MUSI 2312.

MUSI 3313 – Music History and Literature I (3 credit hours - Fall semester). A study of the development of music in Western civilization from antiquity to the early Baroque, including recognition of the influences shaping the course of music and the lives of composers.

MUSI 3314 – Advanced Harmony & Sightsinging I (3 credit hours - Fall semester). Harmonic analysis and four-part harmonization involving modulation, less common chord progressions, leading tone chords, and diatonic seventh chords; examination of binary and ternary forms, procedures for instrumental writing, sightsinging, ear-training, and keyboard study. Prerequisite: MUSI 2323.

MUSI 3317 – Concepts and Applications I (3 credit hours - Fall semester) Survey of public school music with emphasis on vocal, choral, instrumental, and other types of public school music appropriate for the elementary grades.

MUSI 3318 – Concepts and Applications II (3 credit hours - Spring semester). Survey of public school music with emphasis on vocal, choral, instrumental, and other types of public school music appropriate for the high school.

MUSI 3321- Essential Elements of Music {*Formerly Notation and Terminology*} (3 credit hours - Spring semester). A study of the basic elements of music within the scope and sequence of music as defined in the Texas Essential Knowledge and Skills for Elementary Majors.

MUSI 3324 – Music History and Literature II (3 credit hours - Spring semester). A study of the development of music in Western civilization from mature Baroque, through the Romantic Period, including recognition of the influences shaping the course of music and the lives of composers.

MUSI 3325 – Advanced Harmony & Sightsinging II (3 credit hours - Spring semester). Four-part harmonization and harmonic analysis involving altered chords, chords of the ninth, eleventh, and thirteenth; advanced modulation; brief look at the Twentieth Century; sight-singing, ear-training, and keyboard study. Prerequisite: MUSI 3314

MUSI 3328 – Conducting (3 credit hours - Fall semester). A study of basic skills necessary for effective conductor-performer communication in choral and instrumental ensembles including beat patterns, cues, dynamics, phrasing, and score study. Prerequisites: MUSI 23321 and a working knowledge of the piano.

MUSI 4102 – Music Seminar (1 credit hour). The evaluation of materials and methods of the various types of music activities in the school; special study of some problems associated with the teaching of music. Taken concurrently with student teaching.

MUSI 4305 – Music of the Twentieth Century (3 credit hours). A study of the development of music at the turn of the century; study of techniques, styles, innovations, and trends. Prerequisites: MUSI 33321 and MUSI 43321.

MUSI 4309 – Composition (3 credit hours). Creative expression in small forms. Techniques include traditional media, electronic music, and multi-media. Prerequisite: knowledge of transpositions and keyboard.

MUSI 4313 – Instrumental and Choral Techniques in the Elementary School (3 credit hours Fall semester) Provides preparation for the teaching of instrumental and vocal music in the elementary grades.

MUSI 4316 – Counterpoint (3 credit hours - Fall semester). An extensive study of the contrapuntal principles and practices employed in the Eighteenth Century compositions. Prerequisite: MUSI 3325.

MUSI 4324 – Instrumental and Choral Techniques in the Secondary School (3 credit hours - Spring semester). Provides preparation for the teaching of instrumental and vocal music in the secondary grades.

MUSI 4327 – Form and Analysis (3 credit hours - Spring semester). An extensive study of the evolution of musical form and style with emphasis on the principles of structural analysis. Prerequisites: MUSI 3325 and MUSI 4316.

MUSI 4328 – Orchestration and Arranging (3 credit hours - Spring semester). Practice in arranging music for instrumental and vocal ensembles and keyboard study.

Recitals

MUSR 3101 – Junior Recital (1 credit hour). The student must prepare and present a cumulative junior recital. The program is to be approved by the supervising instructor in conjunction with other members of the music faculty.

MUSR 4102 – Senior Recital (2 credit hours). The student must prepare and present a cumulative public senior recital. The program is to be approved by the supervising instructor in conjunction with other members of the music faculty.

RELIGION

The Department of Religion provides an informed understanding of various aspects of religious traditions. The Area of Religion nurtures an informed, rich, and committed interest in Biblical teachings and theology. The program enables students to have the preparation needed for advanced study in a seminary or divinity school. The program familiarizes students with cultural relativism of various religious theologies. Students completing the major will be prepared for entry into seminary, graduate study or the profession of ministry.

The following are the courses of study for the Religion programs as well as the course descriptions.

RELIGION COURSE DESCRIPTIONS

*RELI 1311 – Survey of the Bible (3 credit hours). A study of the fundamental elements in the development of the Bible as sacred writing. Attention is given to the process of canonization and biblical sources. Selections from the Old Testament and the New Testament.

RELI 1312 – Comparative World Religions (3 credit hours - Fall semester). A study of the basic content of the major religions of the world. A phenomenological exploration of the basic doctrinal principles of various religious beliefs.

RELI 1313 – Survey of the Old Testament (3 credit hours - Fall semester). Study of the Old Testament, focusing on the background, content, structure, geography, teachings and basic meaning of each book and outstanding people and events.

RELI 1324 – Survey of the New Testament (3 credit hours - Spring semester). Study of the New Testament, focusing on the mission and message of Jesus Christ and the development of the early Christian church. Prerequisites: RELI 1311 or 1313.

RELI 2317 – Church History (3 credit hours - Fall semester). The historical development, teachings, and struggles of the Christian Church since the time of Christ. Prerequisites: RELI 1313 and RELI 1324.

RELI 2318 – The Life and Thoughts of Martin Luther King, Jr. (3 credit hours - Fall semester). Emphasis will be given to Dr. King's role in shaping the freedom struggle, Civil Rights legislation, and contemporary religious thought.

RELI 2325 – Fundamentals of Morals and Ethics (3 credit hours). An introduction to the major themes of morals and ethics. Attention is given to development of the framework from which moral and ethical decisions are made and to the application of these to problems of contemporary life. Prerequisites: RELI 1313 and RELI 1324.

RELI 3311 – Study of African-American Religious Thought (3 credit hours - Fall semester, alternate years). An exploration of the basic themes that constitute the development of black theology. Attention is given to the emergence of the Black church from the slave period to contemporary developments in Black theology and Womanist theology

RELI 3312 – Philosophy of Religion (3 credit hours - Fall semester). Developing a philosophical view of religion based on major historical and contemporary figures, including Augustine, Aquinas, Kant, Hegel, W.E.B. Dubois, and Cornel West. Prerequisites: RELI 1313 and RELI 1324.

RELI 3323 – Sociology of Religion (3 credit hours - Spring semester). Exploring the classic thinkers of the field: Weber, Marx, Durkheim, and W.E.B. Dubois. The objective is to address the question, “What is religion’s role in society?” Prerequisite: RELI 3312.

RELI 4318 – Biblical Theology (3 credit hours - Fall - Semester). Advanced Bible study and its formation in creating a theology that is biblically based. Themes of Creation, Redemption, Promise, Covenant, and Restoration will be examined. Prerequisites: Senior standing, RELI 1313 and RELI 1324.

RELI 4322 – Christian Ministry Seminar (3 credit hours - Spring semester). Designed to present students with the broad scope of ministry, including expertise from a variety of guests including preachers, inspirational speakers, singers, evangelists, pastoral counselors, music ministers, and faith-based activists. Recommended for Religion majors interested in Christian ministry. Prerequisites: Senior standing, RELI 1313 and RELI 1324.

RELI 4329 – Advanced Theology (3 credit hours - Spring semester). Designed to help students develop their own systematic presentation of doctrines of God, Christ, Holy Spirit, Humanity, and the Church. Prerequisites: Senior standing, RELI 1313 and RELI 1324.

SPAN 1301 – Elementary Spanish I (3 credit hours). Beginning Spanish for those who have little or no previous knowledge of the language, studies in phonetics, vocabulary, pronunciation, language construction, and translation.

SPAN 1302 – Elementary Spanish II (3 credit hours). Studies in practical vocabulary and common expressions, dialogue, syllabication, accent, and survey of the different parts of speech. Prerequisite: SPAN 1301.

SPAN 2301 – Intermediate Spanish I (3 credit hours - Fall semester). Studies in reading and conversation, composition, vocabulary using gender, number, and conjugation. Prerequisite: SPAN 1302.

SPAN 2302 – Intermediate Spanish II (3 credit hours - Spring semester). Studies in orthographical accentuation, short compositions, uses of “Ser and Estar,” the prepositions “Por and Para,” regular and irregular verbs in the indicative and subjective moods, and conversation. Prerequisite: SPAN 2301.

**** General Education Courses Offered by the Division***

*ARTS 1301 – Art Appreciation (3 credit hours). An introduction to the visual arts and artistic personalities through a survey of multicultural achievements in painting, sculpture, and

architecture. Emphasis is placed on visual perception, understanding, and development of art composition and style. Field trips to various exhibits are included.

*HIST 1301 – History of the United States to 1877 (3 credit hours - Fall semester). This course covers the growth of the Republic from colonial times through the Civil War Period and Reconstructions.

*HIST 1302 – History of the United States Since 1877 (3 credit hours - Spring semester). This is a continuation of the preceding course moving from the end of Reconstruction Period through the growth of the United States as a world power.

*HLTH 2281 – Essential Elements of Health (2 credit hours). Principles and practices essential to healthful living are presented. Problems peculiar to the college student attitudes, concepts, and research on designed to focus attention on and promote the development of healthful habits.

*SPCH 1301 – Fundamentals of Speech Communication (3 credit hours). Theory and practice of speech communication behavior in one-to-one, small group, and public communication situations. Students learn more about themselves, improve skills in communicating with others, and make formal oral presentations. This course requires college-level skills in reading and writing.

*THTR 1301 – Introduction to the Theater (3 credit hours). The various aspects of the theater are surveyed. Topics include plays, playwrights, directing, acting, theaters, artists, and technicians. This course may be used as the fine arts requirement in the Academic Foundation Core for non-certification.

DIVISION OF NATURAL AND COMPUTATIONAL SCIENCES

The Division of Natural and Computational Sciences is comprised of offerings in Computer Science, Mathematics, and Biology. The Division of Natural and Computational Sciences generally address students' preparation and understanding of scientific inquiry and knowledge as well as the traditional forms of theory associated with science, computer simulation, numerical analysis, and theoretical computer science. The majors offered in the Division familiarize students with the general practices of natural and computational sciences while also providing an understanding of various models and approaches that may be used in the respective fields of study.

All students aspiring to become candidates for a major in the Division of Natural and Computational Sciences must complete a maximum of 44 semester hours of general education courses and 15 hours of institutional requirements. The prerequisite courses and requirements are listed.

BIOLOGY

The Department of Biology offers diversified programs that enable students to select a curriculum that best suits their career goals. Biology covers an array of specialist subjects inclusive of anatomy, ecology, microbiology and zoology. The Biology degree provides for scientific skill developments and preparations that are transferrable to many industries. Further, program provides the skills necessary to enter professional programs as well as professions in industry, agribusiness, food management, cosmetics, pharmaceuticals, and the retail industry.

The curriculum provides a strong foundation in liberal arts and sciences needed for emerging careers in science and/or related fields.

BIOLOGY COURSE DESCRIPTIONS

BIOL 1411 – General Zoology (4 credit hours). A study of the representatives of the animal kingdom beginning with cellular components and continuing through the higher forms in the animal kingdom. Structure, physiology, distribution, development, heredity, classification, and environmental adaptation with some reference to man will be studied. Three lecture hours and a two-hour laboratory each week.

*BIOL 1471 – General Biology I (4 credit hours). This course is designed to serve as an introductory course for those students who wish to become biology majors. It emphasizes the importance of the cell, processes that occur within the cell, and the overall unity and diversity of life and living organisms.

BIOL 1472 – General Biology II (4 credit hours). This course is designed to serve as a continuation of BIOL 1471 course for those students who wish to become biology majors. It emphasizes the importance of the cell, processes that occur within the cell, and the overall unity and diversity of life and living organisms. Prerequisite: BIOL 1471.

BIOL 2470 – General Botany (4 credit hours). This course is designed to serve as an introductory course to botany for Biology Majors. It emphasizes plant life cycles, as well as how all life forms are dependent on plants. This course also covers the history of plants and their relationship to the development of human civilization as well as their economic importance. Successful completion of Human Anatomy & Physiology I & II. Prerequisites: BIOL 1471 & 1472.

BIOL 2471 – Human Anatomy & Physiology I (4 credit hours). This course is designed to serve as an introductory course to human anatomy & physiology for Biology majors. It emphasizes the importance of the cell, the structure and function of tissues, the structure and function of various organ systems and how the organ systems interact includes three lecture hours and two hours of laboratory per week. Prerequisite: BIOL 1471 & 1472.

BIOL 2472 – Human Anatomy & Physiology II (4 credit hours). This course is designed to serve as an introductory course to human anatomy & physiology for Biology majors. It emphasizes the importance of the cell, the structure and function of tissues, the structure and function of various organ systems and how the organ systems interact includes three lecture hours and two hours of laboratory per week. Prerequisite: BIOL 2471.

BIOL 2473 – Microbiology (4 credit hours). This course includes historical perspectives, cell structure and function, microbial genetics, infectious disease, immunology, distribution, physiology, identification, classification, and disease control of microorganisms. Successful completion of Human Anatomy I and II is required. Prerequisites: BIOL 1471 & 1472.

BIOL 3370 – Nutrition (3 credit hours). A study of food types, classification, and functions; the role in body processes and the role of diets in health and illness. Three lecture hours per week.

BIOL 3471 – Genetics (4 credit hours). This course is designed to serve as an introductory course to genetics for Biology Majors. It emphasizes study of the structure and function of nucleic acids in viruses, prokaryotes and eukaryotes, as well as the basic concepts, principles and applications of classical, molecular and population genetics. Successful completion of Microbiology is required. Prerequisites: BIOL 2473.

BIOL 3472 – Histology (4 credit hours). A study of the microscopic structure of the vertebrate tissues and organs including laboratory practice in the identification of different kinds of cells and their products that are organized into the basic tissues. This course will attempt also to

examine the organization of tissues within various organ systems of representative vertebrate animals. Three lecture hours and two laboratory hours per week.

BIOL 3473 – Plant Physiology (4 credit hours). The study of structure and physiology of plant organ systems, mineral nutrition, energetic processes, water relations; growth, development, transport, and hormonal systems. Three lecture hours and two hours of laboratory per week. Prerequisites: BIOL 1471 and CHEM 1472.

BIOL 3474 – Ecology (3 credit hours). This course is designed to be a framework for an interdisciplinary analysis of environmental problems. The fundamental principles presented will permit the student to understand local and global environmental issues. Successful completion of General Biology I or Life Sciences is required. Prerequisites: BIOL 1471 & 1470.

BIOL 4271 – Seminar (2 credit hours). This course is designed to provide junior and senior Biology students the skills necessary to comprehend, analyze and critique scientific articles from refereed journals. The course will also provide students the skills necessary for comprehending modern scientific methods. The course will utilize current and topical journal articles, student presentations, round table discussions, and examinations.

BIOL 4272 - Research (2 credit hours). Open to juniors and seniors. Covers the basic techniques used in exploring biological literature, in planning experiments, and in making and recording observations.

BIOL 4370 – Bioethics (3 credit hours). This course is designed to serve as an introductory course to bioethics for Biology Majors. This course will undertake an examination of the philosophical theories of ethics which have guided medical ethics, environmental ethics, and animal rights issues. Successful completion of Ecology is required. Prerequisite: BIOL 3474.

BIOL 4372 – Essential Elements of Science (only for education majors) (3 credit hours - Spring semester). A broad study of the concepts of physical, biological, and earth sciences with lectures and demonstrations relative to the essential elements.

BIOL 4470 – Molecular Cell Biology (4 credit hours). This course is designed to serve as an introductory course to molecular cell biology for Biology Majors. The course will utilize eukaryotic and prokaryotic models. In this course we will examine many different areas of molecular cell biology including: the synthesis and function of macromolecules such as DNA, RNA, and proteins; control of gene expression; membrane and organelle structure and function; bioenergetics; and cellular communication. Prerequisite BIOL 3471.

BIOL 4471 – Comparative Vertebrate Anatomy (4 credit hours). A study of the fundamentals of classification, morphology, and morphogenesis of the vertebrates with emphasis on the comparisons of anatomical systems. It also includes discussions of the functions of body structures along with anatomical descriptions of representative vertebrate classes includes three lecture hours and two hours of laboratory per week.

BIOL 4472 – Vertebrate Embryology (4 credit hours). This course deals with structure, principles, and progress in vertebrate development. The chick, pig, and frog are used as representative vertebrate types. Three lecture hours and two hours of laboratory per week. Prerequisite: BIOL 4471.

BIOL 4473 – Invertebrate Zoology (4 credit hours). Review of the structure, function, environmental relationships, and possible evolutionary history of animals without backbones. Major Representatives of the most important groups are emphasized. Three hours of lecture and two hours of laboratory per week. Prerequisite: BIOL 1311.

BIOL 4474 – General Entomology (4 credit hours). Sem-physiology, ecology, taxonomy, economic, and medical importance of insects are discussed. Three lecture hours and two hours of laboratory per week. Prerequisite: BIOL 4471.

COMPUTER SCIENCE

The Department of Computer Science provides opportunities for both theoretical and practical knowledge. Computer Science is a wide-ranging discipline that deals with the exploration, design and synthesis of computer systems and their applications. The major curriculum is intended to prepare students to enter the rapidly growing computer field and includes a sound preparation in science and mathematics. Students from any other discipline can also have a minor in Computer Science, if they meet the requirements. A minor in Computer Science consists of eighteen (21) semester hours in Computer Science, at least nine (9) semester hours of which must be upper (advanced) division courses. Students should consult a faculty advisor prior to enrolling in courses intended to count toward the minor.

COMPUTER SCIENCE COURSE DESCRIPTIONS

*COSC 1330 – Computer Literacy (3 credit hours). A study of the history, concepts, and terminology of computing. Course content includes analysis of computer hardware components, system software, applications software, database manipulation, communications and networking, information systems, computer programming, as well as, the ethical and social issues of computing. Students will get a working knowledge of Office 2010. Anyone with no prior computer knowledge may take it. No prerequisite; foundation course required for all majors.

COSC 1332 – Microcomputer Applications (3 credit hours). Introductory hands-on course using Microcomputers .Programs include word processing, spreadsheet development, presentation graphics and database management systems. Open to all majors. Prerequisite: COSC 1330.

COSC 1336 – Introduction to Programming (3 credit hours). A first course in programming which includes the introductory concepts of computer organization, problem solving methods, and algorithmic development and documentation. Programs will be designed in both procedure-oriented and object-oriented event-driven languages. Open to all majors. Prerequisite: COSC 1330.

COSC 2326 – Structured Programming (3 credit hours). A study of developing structured programs with emphasis on top-down design techniques. Concepts include data types and scope, control structures, modularization and parameters, addressing and pointers, string and array

processing, record structures, file handling, and an introduction to object-oriented programming. Prerequisite: COSC 1336.

COSC 2336 – Object-Oriented Programming (3 credit hours). A software design course using an object-oriented programming language such as C++, visual basic and Java. Concepts include class structures and abstract data types, type hierarchies (subclasses), encapsulation, inheritance and polymorphism. Prerequisite: COSC 2326.

COSC 2338 – Data Structures (3 credit hours). A study of abstract data types, both static and dynamic storage structures and their implementations using arrays structures, lists, stacks, queues, tree structures, and sorting and searching techniques and how to implement them in a high level language, how to analyze their effect on algorithm efficiency . Prerequisite: COSC 2336.

COSC 3310 – Internet Programming (3 credit hours). Programming for the Internet objects. Languages such as Java, Java script, VB-script, Java Applet, JSP, Ruby on the Rail, and XHTML will be introduced. Prerequisite: COSC 1336.

COSC 3338 – E-Commerce Programming (3 credit hours). Design, build and maintain a complete E-commerce website that meets user requirements. Students will also be setting up web servers and commerce servers and implementing advertising on the web as well as electronic payments. Systems, and client site –server site programming. Prerequisite: COSC 1332.

COSC 3355 – Operating Systems (3 credit hours). A study of operating system structures for various computer platforms. Detailed concepts of memory management, process scheduling, recovery and system security, are covered. Prerequisites: COSC 1338 AND COSC 2336.and applications of windows, OS, LINUX/UNIX OS are introduced. Prerequisite: COSC 2336 or COSC 2338.

COSC 3371 – Digital Systems (3 credit hours). A detailed study of the organization, logic, and components of a contemporary computer. Basic concepts of digital logic, microprogramming, machine language, assembly language and operating system levels with an emphasis on the smaller machines and emerging technologies. Prerequisites: COSC 1332 and MATH 2330. Prerequisite: COSC 3338.

COSC 3375 – Computer Assisted Instruction (3 credit hours). An introductory course designed for educators who wish to develop skills in creating lessons on the microcomputer. The course will consist of an introduction to microcomputers, the design and application of lessons in different subject areas, and the impact of the computer in future classrooms. Open to all majors.

COSC 4175 – Seminar in Computer Science (1 credit hour). This course is designed for senior level computer science majors who will present papers on current topics in computer science.

COSC 4315 – Topics in Computer Science (3 credit hours). This course is designed to study current trends in computer science that are not currently covered in core curriculum. Prerequisite: consent of area coordinator.

COSC 4360 – Communications and Networking (3 credit hours). A study of data communication, networking, and connectivity. Topics include the various hardware and software components, as well as, the protocols which allow communications between computer systems and the basic concepts of local and wide area networks. Prerequisite: COSC 3355

COSC 4375 – Internship (3 credit hours). An eight (8) to 10 week program providing for hands-on experience in a data processing environment, in a hospital, industry, or educational institution. It is a requirement that the students must secure internships external agency/institution and work under the supervision of a local supervisor and the host supervisor.

COSC 4378 – Artificial Systems (3 credit hours). A study of applications in the cognitive science area of artificial intelligence. Topics include the development and implementation of expert systems, fuzzy logic systems, and other knowledge-based systems widely used in business processing, as well as, scientific applications using symbolic processing and neural networks. Prerequisites: COSC 1332.

COSC 4379 – Advanced Commercial Applications (3 credit hours). Developing commercial applications which require advanced programming techniques beyond sequential file processing. Concepts include handling multiple files, indexed sequential access, random access, file updating, and data validation. Prerequisite: COSC 3310.

COSC 4385 – Database Management (3 credit hours). A study of the architecture and design of a database management system with emphasis on relational systems. Concepts include the development, implementation and maintenance of a database, data relationships, integrity, data definition, and manipulation languages, data mining and structured query language Prerequisite: COSC1332 and instructor's approval.

****General Education Course Offered by Division***

MATHEMATICS

The Department of Mathematics provides a broad liberal arts foundation in the area of mathematical study. Students are introduced to mathematical topics, principles and foundational preparation that will assist with graduate school entry and/or entry into professional fields. The curriculum emphasizes computing and mathematical modeling designed to give students a modest advantage in the job market. The Department of Mathematics programs leads to the Bachelor of Science degree and/or preparation of the Educator Preparation program.

The following is the course of study for the mathematics program as well as the course descriptions.

MATHEMATICS COURSE DESCRIPTIONS

*MATH 1314 – College Algebra (3 credit hours). Algebraic concepts with applications including linear models, polynomial and rational models, exponential and logarithmic models and the mathematics of finance.

MATH 1316 – College Trigonometry (3 credit hours). Trigonometric, circular, logarithmic and exponential functions, their properties, and their relationships to topics in mathematics; application of trigonometry to the graphic and non-graphic solution of problems.

MATH 1342 – Applied Statistics {*Formerly Statistics*} (3 credit hours). Course offerings consist of the two basic concepts: descriptive statistics and inferential statistics. Descriptive statistics includes a study of basic vocabulary and description of data collecting; summarizing and presenting data; measures of dispersion and variability and their significance. Inferential statistics deals with survey of concepts of probability; discrete and normal distributions and their application; sampling, tests of hypotheses, and non-parametric tests. Each student will be required to conceptualize, design, and implement a project. Prerequisite: six hours of mathematics. Computer skills will be useful.

MATH 2330 – Discrete and Combinatorial Mathematics (3 credit hours). Bit strings, basic concepts of set theory, algebraic structures, Cartesian products and relations, mappings, Boolean algebra, Boolean functions, applications to circuits, lattices, combinatorial principles, groups, generating functions, and recursion.

MATH 2413 – Calculus and Analytical Geometry I (4 credit hours, which includes three hours lecture and a one hour lab). Studies rate of change of functions, limits, derivatives of algebraic functions; differentials, continuity, application to relative time rates; curve plotting, maximum and minimum, Rolle's Theorem; Mean Value Theorem, indefinite integrals, differentiation and integration of sine and cosine functions, and other transcendental functions. Prerequisite: MATH 1317.

MATH 2414 – Calculus and Analytical Geometry (4 credit hours, which include three hours lecture and a one hour lab) Studies applications of definite integrals to areas between curves, volumes, approximations, length of arc; areas of surfaces of revolution, moments, centroids, Pappus theorem; pressure, work; various techniques of integration, and special topics. Prerequisite: MATH 2413.

MATH 3305 – Ordinary Differential Equations (3 credit hours). First-order equations, non-linear and linear; applications, second-and higher-order linear homogeneous and non-homogeneous equations; applications to vibrations and circuits, solutions in series. Cauchy equations, and the Frobenius method are presented.

MATH 3315 – Linear Algebra (3 credit hours). Vectors in \mathbb{R} and \mathbb{C} , linear equations, matrices, vector spaces, subspaces, basis and dimension, and linear operations.

MATH 3325 – Foundations of Mathematics (3 credit hours). A general review of the development of the elementary branches of mathematics; study of the elementary logic, intermediate set theory, relations, functions, and countable number systems.

MATH 3365 – Modern Geometry (3 credit hours). Axiomatic methods, axiomatic systems, finite geometry; postulate of connection, distance, order relations, angles, triangles and polygons; parallels postulates, similarity, Pythagorean Theorem; area, lines and planes in space; circles, four dimensional geometry, and plane hyperbolic geometry.

MATH 3404 – Multivariate Calculus {*Formerly Multivariate Calculus, Vectors, Space Geometry*} (4 credit hours). Vectors calculus, functions of several variables, partial differentiation, and multiple integrals. Prerequisite: MATH 2414.

MATH 4340 – Advanced Calculus (3 credit hours). Real numbers, limits and continuity of functions, the Riemann integral; uniform continuity and convergence; compactness, and improper integrals.

MATH 4350 – Probability (3 credit hours). A presentation of set theory, techniques of counting, introduction to probability; conditional and independent probability, random variables, binomial, normal and Poisson distributions, and Markov chains.

MATH 4378 – Advanced Applied Mathematics (3 credit hours). Covers formulation, solution, and interpretation of various applied problems; mechanical vibrations, population dynamics, biomedical diagnosis; Markov chains, computer simulation, linear systems, parameter estimations; matrices, stability, eigenvalues, and numerical methods. Prerequisite: MATH 3305.

MATH 4460 – Research Seminar in Mathematics with Applications for Management, Life Sciences, Social Sciences, Education, Psychology, and Computer Science {*Formerly Research Seminar in Mathematics with Applications for Management, Life, Social, and Computer Science*} (4 credit hours). Topics to be researched are selected to meet the needs and interests of the student. Examples of topics are finance, trigonometric functions, psychological phenomenon; political situations, medical topics, ecological problems. Application of the basic principles of statistics and probability is made. Results of research must be presented before the faculty, peers, and other interested persons. Required of all mathematics majors. Prerequisite: MATH 1342.

****General Education Course Office by Division***

EXECUTIVE ADMINISTRATION

Dwight J. Fennell, B.A., M.A., M.S., Ph.D..... President
James Harris, B.A., M.B.A., C.P.A Vice President for Business and Finance
Stephen L. Jones, B.S., M.S., Ph.D Vice President for Academic Affairs
Cynthia Marshall-Biggins, B.S., M.A., Ed.D Vice President for Student Affairs
Director of Institutional Effectiveness
Angela Fennell, B.S., M.A Executive Assistant to the President/
Director of Special Projects/Development
Willie C. Champion, B.S., M.Th., D.Min..... Assistant to the President/
Director of Security

ADMINISTRATIVE PERSONNEL

Lois Bowie, B.B.A Director of Human Resources
Octavia Brown, B.S., M.S Director of Teacher Education
Ocie Fisher, B.A Assistant Director of Information Technology
KeJuana Fridie, B.S., M.B.A Director of Title III
Linda Simmons-Henry, B.A., M.L.S Director of Library Services
Gail Johnson, B.B.S, M.A Director of Financial Aid
Anthony Parker Director of Physical Plant
John Roberts, B.S., M.B.A Dean of Enrollment Services
Elissia Burwell, B.S Athletics Director/Head Women's Basketball Coach
Isaac Williams B.A., M.Ed Dean of Students

FACULTY

Adama, Charity Assistant Professor of English
B.A., University of Maidguguri; M.A., Western Illinois University; Ph.D., Texas A&M University
Addison, Doris Assistant Professor of Criminal Justice
B.S., Southern University; M.S., Loyola University

Adufuye, Boyejo..... Associate Professor of Sociology
 B.S., M.A., Ph.D., Iowa State University

Akpan, Bassey Associate Professor of Computer Science
 B.S., M.S., Southern University; D.B.A, Argosy University

Ali, Hamad..... Associate Professor of Accounting
 B.S., Yarmouk University; M.S., Southeastern University; Ph.D., University of North Texas

Brown, Octavia Director of Teacher Education
 B.S., Texas Woman's University; M.Ed., Prairie View A&M

Butts, Robert Assistant Professor of History
 B.A., University of Oklahoma; M.S., Texas A&M University; Ph.D., Texas Christian University

Cade, Barbara..... Instructor of English
 B.A., University of Nebraska; M.A., University of Texas at Tyler

Capers, Jamie..... Instructor of Religion
 B.A., University of Mississippi; M.S. Interdenominational Theological Center;
 D.Min., Columbia Theological Seminary

Carr, Deloise Instructor of Physical Education
 B.S., M.S., Grambling State University

Diotallevi, Jennifer Assistant Professor of Biology
 B.S., M.S., University of Akron; Ph.D., University of North Texas

Edwards, Rosia Assistant Professor of Mathematics
 B.S., Wiley College; M.S., Prairie View A&M University

Gordon, Victoria Instructor of Business
 B.S., M.S., University of Phoenix; M.A., Liberty University

Gupta, Mamta Associate Professor of Biology
 B.S., Maharshi Dayanand University; M.S., Kurukshetra University;
 Ph.D., Kurukshetra University

Iakhiaev, Alexei Associate Professor of Biology and Physics
 B.S., M.S., Ph.D., Russian State Medical University

Johnson, Linda..... Instructor of Biology
 B.S., M.S., University of Tulsa

Lacey, Virgie..... Instructor of Education
 B.A., University of Texas at Tyler; M.Ed., University of Texas at Arlington

Lee, Jaeyong Assistant Professor of Music
 B.M., Hanyang University; M.M., Northwestern State University; D.M.A., Texas Tech University

Lloyd-Bullock, TiffanyAssistant Professor of Political Science
B.S., Alcorn State University; M.P.A, Ph.D., Southern University and A&M College

Magee-Norfleet, MichelleAssistant Professor of Music
B.S., University of North Texas; M.S., University of Texas at Arlington Ed.D. Jones International
University

Malek, Bob.....Assistant Professor of Mathematics
B.S., Texas College; M.S., University of Texas at Tyler, Ph.D. Instituto Politecnico Nacional

Manning, AntoineInstructor of Physical Education
B.S., University of Wisconsin; M.S., South Dakota State University

McCune, ScottAssistant Professor of Computer Science
B.S., Louisiana State University; M.B.A., Ph.D., University of Canterbury

McDonald, Ray Associate Professor of Social Work
B.A., M.S.W., Southern University; Ph.D., University of North Texas

Ngwang, EmmanuelProfessor of English
B.A., University of Yaounde; M.S., Kaplan University; M.A., University of Central Oklahoma;
Ph.D., Oklahoma State University

Osuagwu, Godwin Assistant Professor of Business
B.S., Texas College; M.B.A, University of Texas at Tyler

Pratt, Philip.....Instructor of Criminal Justice
B.S., M.S., Mississippi Valley State University

Robinson, Edward.....Associate Professor of History/Religion
B.A., Southwestern Christian College, M.A.R., Harding University Graduate School; M.A.,
University of Illinois; Ph.D., Mississippi State University

Russell, RosalindAssociate Professor of Social Work
B.A., San Francisco State University, M.S.W., University of California at Berkeley

Sanders, Edward Instructor of Spanish
B.A., East Texas Baptist University; M.A., Stephen F. Austin State University

Saunders, Kenneth.....Assistant Professor of Government
B.S., University of New York Regents College; M.A., University of Texas at El Paso

Sparrow, Christopher..... Assistant Professor Chemistry
B.S., Xavier University; M.S., Louisiana State University; Ph.D., Southern University

Thompson-Hill, Shazetta.....Instructor of Religion
B.A., Lane College; M.A., Layola University

Usongo, Kenneth Associate Professor of English
 B.A., M.A., Ph.D., University of Yaounde 1, Cameroon

Warren, Sonja Instructor of Education
 B.S., University of Texas at Tyler; M.Ed., LeTourneau University

Willis-Thornbury, Mary Associate Professor of Music
 B.M.E., Oklahoma Baptist University; M.M., D.M.A., SW Baptist Theological Seminary

Part-Time Faculty

Brown, Beverly Instructor of Business
 B.S., Wiley College; M.B.A., Clark Atlanta University

Callahan, Ronald..... Instructor of Education
 B.S., M.S., Stephen F. Austin State University

Cunningham, RonaldLecturer
 B.A., LeMoyne College; D.Th., Southern California School of Theology, Claremont, CA

Gary FreemanInstructor of Music
 B.M., North Texas State University; M.M., Southern Methodist University

Gaines, Donnie.....Instructor of Social Work
 B.S., University of Texas; M.S., Stephen F. Austin State University

Harry, OttoInstructor of Music
 B.M.E, M.M.E., Jackson State University

Holmes, GlenInstructor of Education
 B.A., Morris Brown College; M.A., University of Phoenix

Houze, Willie..... Instructor of Religion
 B.S., Wiley; M.S., Prairie View A&M University; M.S. BM&A Theological Seminary

Jackson, JenniferInstructor of Biology
 B.S., Prairie View A&M University; Pharm.D., Hampton University

James, JesseInstructor of Biology
 B.S., M.S., University of Texas at Tyler; M.A., Sam Houston State University

Phillips, ToniInstructor of Criminal Justice
 B.S., Paul Guinn College; M.A., Dallas Baptist University

Pinkerton, Patrina..... Instructor of Business
 B.S., Texas College; M.B.A., LeTourneau University

Simpson, CherylInstructor of Social Work
B.S., Texas College; M.S., Stephen F Austin University
